

ADVISORY COMMITTEE ON HUMAN RADIATION EXPERIMENTS
1728 M STREET, N.W., SUITE 600
WASHINGTON, D.C. 20036

Why was the Advisory Committee formed?

The President of the United States appointed the Committee to analyze these questions: What is the federal government's responsibility for wrongs and harms to human subjects as a result of experiments with ionizing radiation? What remedies are appropriate for those wronged or harmed? And what lessons learned from studying research standards and practices in the past and present can be applied to the future?

Who are members of the Advisory Committee?

The 14 members are nationally recognized experts in bioethics, epidemiology, radiation oncology and biology, history of science, law and nuclear medicine. The Committee also includes a citizen representative. Ruth Faden, a bioethicist at Johns Hopkins University, chairs the Advisory Committee.

What is the Committee authorized to review?

The Committee's charter includes the review of experiments conducted since the 1940s with ionizing radiation and the investigation of specific intentional releases of radiation into the environment.

The Committee's mandate does not include common and routine clinical practices, such as established diagnosis and treatment methods. An important question is how to define the difference between ordinary practice and experimental procedures.

Another important question is whether accidental exposures gave agencies or researchers a chance to conduct "experiments of opportunity."

What will the Advisory Committee do?

The members will prepare a report designed to answer the three questions posed above. The report will be issued in 1995 to an Interagency Working Group composed of the secretaries of the departments of Defense, Energy, Health and Human Services, Justice, and Veterans Affairs, and the directors of the Central Intelligence Agency and the Office of Management and Budget, and the administrator of the National Aeronautics and Space Administration.

The following information is public testimony submitted to the President's Committee on Radiation. Only a fragment of it was presented at the actual hearings, so this transcript is more complete. The information is provided by New Orleans therapist Valerie Wolf and two of her patients. Supporting statements are also included, which came from therapists and patients around the US. In some cases, as you will see, supporting statements were submitted anonymously.

How will the Advisory Committee evaluate today's practices?

A sample of research protocols funded by federal agencies in fiscal year 1993 is being used to assess ethical standards and procedures in today's environment. Researchers and subjects of research will be interviewed.

How has the Committee looked into past practices?

The President directed federal agencies to search their files for information about research on human subjects in the past. This process has been revised and expanded under the Committee's direction. Literally thousands of documents, many previously unreported and some of them only declassified this year, have been made available to the public as a result of this effort.

Many documents are, of course, fragmentary accounts of experiments. Recreating the ethics policies, standards and practices of 40 or 50 years ago is difficult, much less recreating the conversations between subjects and researchers.

The Advisory Committee has reviewed many private collections left by subjects of experiments and by researchers.

How has the Committee responded to public concern about these experiments?

The Committee recognizes the importance of hearing directly from people throughout the country and including them in its activities. The Committee seeks out participants in past experiments to hear about their experiences and use their recollections to guide its research and inform its judgments.

In addition to soliciting the views of subjects and other interested parties at its Washington meetings, the Committee has scheduled public meetings around the country to hear first-hand from persons involved in research. The Committee has gained valuable documents and insights from working with subjects or their families, as well as researchers, and that process will continue throughout the life of the Committee's work.

What are key questions about experimentation?

The Committee must define the boundaries of experimentation. What is an experiment? How does it differ from innovative treatment? How does it differ from training, as in the case of military units participating in atomic weapons tests in the 1950s? When is an experiment over? Each question bears on the scope of the Committee's endeavors and the way it evaluates the evidence before it.

x 3

What are the ethical questions in research?

The issues to be weighed by the Committee are many and complex. These include the risks or harm to the subject, and the benefit to the subject or to society as a whole, whether subject populations have been chosen fairly and appropriately, whether subjects have been fully informed and have fully consented to participate in research.

The Committee has discovered more extensive ethical codes and policies in the government than had previously been known. It's not always clear whether they were applied, or how they were interpreted in different circumstances. These codes and policies, however, are critical to the determination of whether experiment subjects were appropriately informed of risks or harm, and selected fairly for the purposes of experimentation.

How can people contact the Committee?

The Committee staff can be reached by telephone at 202/254-9795 or in writing at 1726 M Street NW, Suite 600, Washington, D.C. 20036.

THE WHITE HOUSE
Office of the Press Secretary

For Immediate Release

February 17, 1994

February 17, 1994

MEMORANDUM FOR THE VICE PRESIDENT
THE HEADS OF EXECUTIVE DEPARTMENTS
AND AGENCIES

SUBJECT: Review of Federal Policy for the Protection of
Human Subjects

Federally funded biomedical and behavioral research has resulted in major advances in health care and improved the quality of life for all Americans. The pursuit of new knowledge in these fields of research often requires experiments that involve human subjects. Although human subjects research is an essential element of biomedical and behavioral research, bioethical considerations must influence the design and conduct of such research.

Since 1947, when guidelines for research with human subjects were promulgated, there has been increasingly widespread recognition of the need for voluntary and informed consent and a scientifically valid design of experiments involving human subjects.

Over time, this recognition has evolved into a rigorous and formalized system of regulations and guidelines, which were codified in governmental policies on human subject research, and were included in the former Department of Health, Education and Welfare's regulations in 1974, 45 C.F.R. 46. In 1991, 16 agencies formally adopted the core of these regulations in a common Federal Policy for the Protection of Human Subjects. This Policy requires that all research protocols involving human subjects be reviewed by an Institutional Review Board. This review ensures that (1) risks are minimized and reasonable in relation to anticipated benefits; (2) there is informed consent; and (3) the rights and welfare of the subjects are maintained (56 Fed. Reg. 28003 (June 18, 1991)).

Although these regulations provide the framework for protecting human subjects in research, we must exercise constant care and ensure that these regulations are strictly enforced by departments and agencies. Therefore, I direct each department and agency of Government to review present practices to assure compliance with the Federal Policy for the Protection of Human Subjects and to cease immediately sponsoring or conducting any experiments involving humans that do not fully comply with the Federal Policy.

WILLIAM J. CLINTON

ADVISORY COMMITTEE ON HUMAN RADIATION EXPERIMENTS
1726 M STREET, N.W., SUITE 600
WASHINGTON, D.C. 20036

The Advisory Committee on Human Radiation Experiments is a 14-member committee of nationally recognized experts in the areas of bioethics, history of science, radiation biology and oncology, epidemiology, law and nuclear medicine. The Committee also includes a public representative. Appointed by the President in April 1994, the members are to prepare a report, due in 1995, about the use of human beings as subjects of federally funded research using ionizing radiation. Ruth Faden, Ph.D., M.P.H., a bioethicist at Johns Hopkins University, chairs the Advisory Committee.

The Committee's report will be issued to an Interagency Working Group composed of the secretaries of the departments of Defense, Energy, Health and Human Services, Justice, and Veterans Affairs, and the directors of the Central Intelligence Agency and the Office of Management and Budget, and the administrator of the National Aeronautics and Space

Administration

The Committee's charter includes the investigation of experiments conducted since 1944 with ionizing radiation, the investigation of specific intentional releases of radiation into the environment, and the recommendation to the working group of remedies for abuses of human subjects in past experiments, and of policies to improve ethical practices in today's research.

The Committee held its first meeting in April 1994 and has met approximately monthly since. A staff of professionals in history, bioethics, nuclear medicine and epidemiology works in Washington, D.C., under the Committee's direction. The staff is headed by Executive Director Dan Guttman. Stephen Klaidman is spokesman for the Committee.

The Advisory Committee's meetings are public and materials presented to members of the Committee at its meetings become public record. The Committee's schedule includes at least one meeting on the West Coast and also includes meetings of panels to hear testimony at other sites in the United States.

March 15, 1995

TO: Presidential Commission on Radiation Committee
FROM: Valerie Wolf
RE: Connection between Radiation and Mind Control Experiments

I am here to talk about a possible link between radiation and mind control experimentation that began in the late 1940's. The main reason that mind control research is being mentioned is because people are alleging that they were exposed, as children, to mind control, radiation, drugs and chemical experimentation which were administered by the same doctors who are known to have been involved in conducting both radiation and mind control research. Written documentation has been provided revealing the names of people and the names of the research projects in statements from people across the country. It is also important to understand that mind control techniques and follow ups into adulthood may have been

talking about their victimization in government research.

As a therapist for the past 22 years, I have specialized in treating victims and perpetrators of trauma and their families. When word got out that I was appearing at this hearing, nearly 40 therapists across the country contacted me to talk about clients who had reported being subjects in radiation and mind control experiments. The consistency of people's stories about the purpose of the mind control and pain induction techniques such as electric shock, use of hallucinogens, sensory deprivation, hypnosis, dislocation of limbs and sexual abuse is remarkable. There is almost nothing published on this aspect of mind control used with children and these clients come from all over the country, having had no contact with each other.

What was startling was that therapists reported many of these clients were also physically ill with autoimmune problems, thyroid

March 12, 1995

TO: Presidential Commission on Radiation Committee
FROM: Valerie Wolf
RE: Connection between Radiation and Mind Control Experiments

My name is Valerie Wolf. I am here to talk about a possible link between radiation and mind control experimentation that began in the late 1940's. The main reason that mind control research is being mentioned is because people are alleging that they were exposed to mind control, radiation, drugs and chemical experimentation which were administered by the same doctors who are known to have been involved in conducting radiation and mind control research. Because these people were children and were easily controlled, they appear to have been used in more than one research project. I have provided written documentation revealing the names of people involved in the research and the names of the

research projects, with statements from people across the country who allege that mind control and radiation research was conducted on well children. It is also important to understand that mind control techniques and follow ups into adulthood may have been used to intimidate these particular research subjects into not talking about their victimization in government research.

As a clinical social worker for the past 22 years, I have specialized in treating victims and perpetrators of trauma and their families. This population has included victims of disasters, Vietnam veterans and sexual, physical and emotional abuse.

In preparation for my testimony at these hearings, I called nearly 40 therapists across the country to find out what they knew about the link between radiation and mind control and to get a sense of what other therapists were seeing in clients who had been used in mind control experiments.

B

13

In the January 24, 1994 issue of U.S. News and World Report, there is an article on "The Cold War Experiments". The basic conclusion of the article is that "radiation tests were only one small part of a vast research program that used thousands of Americans as guinea pigs". The research programs included radiation, drugs, mind control and chemicals. My clients and others have reported all of these as being used on them, although technically they were considered to be part of the mind control experiments.

Generally, it appears that therapists across the country are finding clients who have been subjected to mind control techniques. The consistency of their stories about the purpose of the mind control and torture techniques such as electric shock, use of hallucinogens, sensory deprivation, spinning, hypnosis, dislocation of limbs and sexual abuse is remarkable. There is almost nothing published on this aspect of mind control used with children and these clients come from all over the country, having had no contact with each other. From the small sample of therapists to whom I

talked, it appears that about 25% of the clients report memories of being used in radiation experiments. It is possible that more people were exposed to radiation, but that the memories have not yet emerged because our awareness of this experimentation is so new.

What was startling was that therapists reported many of these clients were also physically ill with multiple sclerosis and other muscle and connective tissue diseases as well as mysterious ailments for which a diagnosis cannot be found. While Somatic Disorder is commonly found in these clients, many of the clients who have been involved in the human experimentation with the government have multiple medically documented physical ailments. It is unclear if these physical disorders and symptoms were caused by radiation or drugs used in the experiments.

I have a client, who appears to be typical of these clients, who has a myriad of symptoms which her doctors cannot diagnose. She

D 15

time that their memories emerged spontaneously.

With the proper knowledge of mind control techniques, these clients can be helped. I have been amazed at the progress these clients have made since I began understanding about how the mind control techniques work. Many attempts have been made through Freedom of Information Act filings to gain access to the mind control research documentation. These requests have generally been slowed down or denied, although some information has been obtained. It is very important that we have information to confirm or deny the things that are being remembered.

Furthermore, if, as the evidence suggests, some of these people were used in radiation experiments, there might be information in the mind control experiment files on radiation experiments, especially since Dr. L. Wilson Greene, Dr. Sidney Gottlieb, and Dr. Martin Orne among others, have been reported by people to have been associated with both. If there are radiation files within the mind

control files, then people across the country may then possibly have the documentation to take to their doctors to assist in their medical treatment.

→ There is some suggestion that this research is continuing to the present day and people and their therapists are being harassed by associates of the mind control projects who were assigned to monitor the subjects so that they never talk and so that they can continue to be used as needed.

Finally, I urge you to recommend an investigation into these matters. Although there was a commission on mind control, it did not include the children because most of them were too young or still involved in the research in the late 1970's to come forward.

The only way to end the harassment and suffering of these people is to make public what has happened to them in the mind control experiments. Please recommend that there be an investigation on

STATEMENT TO :
PRESIDENTIAL REPORT ON RADIATION
CLAUDIA S. MULLEN

MARCH 15, 1995

BETWEEN THE YEARS OF 1957 AND 1984, I BECAME A PAWN IN A GOVERNMENT SCHEME , WHOSE ULTIMATE GOAL WAS MIND CONTROL AND TO CREATE THE "PERFECT SPY". ALL THROUGH THE USE OF: CHEMICALS, RADIATION, DRUGS, HYPNOSIS, ELECTRIC SHOCK, ISOLATION IN TUBS OF WATER; SLEEP DEPRIVATION; BRAINWASHING AND VERBAL, PHYSICAL, EMOTIONAL & SEXUAL ABUSE. .

I WAS EXPLOITED UNWITTINGLY FOR NEARLY THREE DECADES OF MY LIFE AND THE ONLY EXPLANATIONS GIVEN TO ME WERE: "THAT THE END JUSTIFIES THE MEANS " AND "I WAS SERVING MY COUNTRY IN THEIR BOLD EFFORT TO FIGHT

MEANS "AND I WAS SERVING MY COUNTRY IN THEIR BOLD EFFORT TO FIGHT
COMMUNISM".

I CAN ONLY SUMMARIZE MY CIRCUMSTANCES BY SAYING, THEY TOOK AN ALREADY
ABUSED 7 YEAR OLD CHILD AND COMPOUNDED MY SUFFERING BEYOND BELIEF. THE
SADDEST PART IS- I KNOW FOR A FACT; THAT I WAS NOT ALONE! THERE WERE
COUNTLESS OTHER CHILDREN IN MY SAME SITUATION AND THERE WAS NO ONE TO
HELP US.....UNTIL NOW.

I HAVE ALREADY SUBMITTED AS MUCH INFORMATION AS POSSIBLE;
INCLUDING CONVERSATIONS OVERHEARD OF THE PEOPLE AND AGENCIES
RESPONSIBLE. I AM ABLE TO REPORT THIS TO YOU IN SUCH GRAPHIC DETAIL;
BECAUSE OF BOTH MY PHOTOGRAPHIC MEMORY AND THE ARROGANCE OF THE
DOCTORS INVOLVED ,WHO WERE CERTAIN THEY WOULD ALWAYS CONTROL MY MIND
AND BEHAVIOR. ALTHOUGH, THE PROCESS OF RECALLING THESE ATROCITIES IS

J
SCHOOL)GAVE ME FOR THE ODD BRUISES, NEEDLE MARKS , BURNS ON MY HEAD AND FINGERS AND EVEN THE GENITAL SORENESS. I HAD NO REASON TO BELIEVE OTHERWISE. ALREADY, THEY HAD BEGUN TO CONTROL MY MIND!

THE NEXT YEAR, I WAS SENT TO A PLACE IN MARYLAND CALLED DEEP CREEK CABINS TO LEARN HOW "TO SEXUALLY PLEASE MEN". ALSO, I WAS TAUGHT HOW TO COERCE THEM INTO TALKING ABOUT THEMSELVES . IT WAS RICHARD HELMS(DEPUTY DIRECTOR OF THE CIA), DR.GOTTLIEB, CAPTAIN GEORGE WHITE AND MORSE ALLEN, WHO ALL PLANNED ON FILMING AS MANY HIGH GOVERNMENT AND AGENCY OFFICIALS AND HEADS OF ACADEMIC INSTITUTIONS AND FOUNDATIONS ,AS POSSIBLE-; SO LATER, WHEN THE FUNDING FOR MIND CONTROL AND RADIATION STARTED TO DWINDLE : THEN THE PROJECTS WOULD CONTINUE- AT ANY COST! I WAS TO BECOME A REGULAR LITTLE"SPY" FOR THEM AFTER THAT SUMMER. EVENTUALLY , ENTRAPPING MANY UNWITTING MEN, INCLUDING THEMSELVES, ALL

WITH THE USE OF A HIDDEN CAMERA. LIVING ON THE

WITH THE USE OF A HIDDEN CAMERA. I WAS ONLY 9 WHEN THIS KIND OF SEXUAL HUMILIATION BEGAN.

I OVERHEARD CONVERSATIONS ABOUT A PART OF THE AGENCY CALLED ORD- (OFFICE OF RESEARCH AND DEVELOPMENT) RUN BY DR. GEEENE, DR. STEPHEN ALDRICH , MARTIN ORNE AND MORSE ALLEN. ONCE , A CRUDE REMARK WAS MADE BY DR.GOTTLIEB ABOUT A POSSIBLE LEAK OVER IN NEW ORLEANS EAST, INVOLVING A LARGE GROUP OF RETARDED CHILDREN, WHO WERE BEING GIVEN MASSIVE DOSES OF RADIATION . HE ASKED " WHY WILSON WAS SO WORRIED ABOUT A FEW RETATRD KIDS? AFTER ALL, THEY WOULD BE THE LEAST LIKELY TO SPILL THE BEANS!"

ANOTHER TIME, I HEARD DR. MARTIN ORNE, WHO WAS THE "DIRECTOR OF THE SCIENTIFIC OFFICE" AND LATER THE INSTITUTE FOR EXPERIMENTAL RESEARCH, STATE, THAT (IN ORDER TO KEEP MORE FUNDING COMING FROM DIFFERENT SOURCES FOR THE RADIATION AND MIND CONTROL PROJECTS, HE SUGGESTED

A RIGHT TO KNOW JUST WHAT IS FACT AND WHAT IS FICTION. IT IS OUR GREATEST PROTECTION AGAINST THE POSSIBILITY OF THIS EVER HAPPENING AGAIN!

THEREFORE- NOW I LEAVE THIS MATTER IN YOUR CAPABLE HANDS. I CAN OFFER NO MORE THAN WHAT I HAVE GIVEN YOU TODAY.....THE TRUTH!

THANK YOU FOR YOUR TIME.

CATHERINE MICHELLE (CLAUDIA S. MULLEN)

MARCH 15, 1995

REPORT TO PRESIDENTIAL COMMITTEE ON RADIATION**SUBMITTED BY: CLAUDIA MULLEN****MARCH 15, 1995****1**

I was born in 1950; adopted at the age of two and one-half into a wealthy, middle-class family; and considered myself fortunate. By the time I reached the age of seven and one-half, I had become well accustomed to my life as an abused child. After years of being molested by my mother and her circle of friends, I believed I had already learned everything anyone could about living in Hell. I was wrong. Nothing could have prepared me for what was about to follow.

Between the years of 1957 and 1984, I was to become a pawn in a Government scheme, whose ultimate goal was; mind control, the manipulation of human behavior and ultimately, to create a human prototype of "the perfect spy". Through the use of chemicals, radiation, mind-altering drugs, hypnosis, electric shock, isolation, sleep deprivation, brainwashing; and sexual, emotional, physical and mental torture- I was exploited unwittingly for nearly three decades of my life. The only explanations

given to me, as I grew older were: "the end justifies the means; and" - "I was serving my country in their bold effort to stop Communism from spreading to my fellow Americans". I can only summarize my circumstances by saying; they took an already-abused seven year-old child and compounded her suffering beyond comprehension. The saddest part is- .I know for a FACT; that I was not alone. There were countless other children in my same situation and; there was no one to help us...until now.

In appreciation of the valuable time you have allotted myself and others, in bringing this urgent matter to your attention; I will attempt to be as concise and accurate as possible. In the following portions of my statement, I shall be supplying you with the specific projects (several of which contain the use of radiation) names, dates, specific places utilized for these projects; project and sub-project numbers; names of key persons involved and their functions; purposes of the operations and subjects used. Of course, it is the children, who I am most interested in drawing to your attention. They were not only abused children, such as myself, but well and disabled ones; of a variety of socio and economic backgrounds. It is only because of my photographic memory and dissociative abilities; that I am able to report the following information in such graphic detail. However, the process of recalling these atrocities is certainly not an easy one; nor is it without some danger to myself and my family. Therefore, it is my sincere hope; that you will hear me out and bear with me. To me...the risk is well worth it.

REPORT: CLAUDIA MULLEN

-During the year after I turned eight, I was told I needed to be tested by some very "important doctors, who were coming from a place called the NIH; from as far away as New York City and a group of scientists who belonged to a Society (Human Ecology Society). " Also, I was told to be "on my best behavior, do as I was told and answer any questions they might ask truthfully, and try not to pay too much attention to the people's faces or names. This was a very important SECRET and sensitive operation they were working on for the President and a Deputy of an important organization in Washington, D.C. In order to help me forget everything(I was told the tests might hurt), I would be given shots and x-rays and maybe a little jolt of electricity; but I was to be brave!" Naturally, as most children do, I made certain to do the opposite and remember as much as I possibly could.

After the tests and before I was shocked and placed in a tub of water in a dark place called the "sleep room" at the hospital(Tulane University Medical Hospital), I overheard Doctor Greene and MY Doctor(Dr. Robert G. Heath) speaking with the group of physicians and men in suits and Army uniforms. Dr. Greene said, "She has a fertile mind and according to her hypnotic abilities, she is perfect for their needs." He also said, "She is a little bit of a

A man I learned was called John (Gittinger) said according to my P A S 's, Weechlers and remarkable scores in the digit span tests, all indicated I had innate abilities needed for this project. " Someone else responded with a remark as to my age and the man ,who had called me "Lassie" (whom I came to know as Dr. E. Cameron) stated, "It's just a matter of degrees. Age really has nothing to do with her usefulness. You must learn to overlook the fact she's only eight years old and have fun with your subjects!" Then I heard laughing as I remember crying inside. I had already learned NOT to show emotion on the outside, because you never knew what reaction or response would be punished or rewarded. By the time I was allowed to go home, I had already forgotten ever meeting anyone new ; taking any tests or being tortured. I recalled ONLY what Dr. Heath TOLD me had occurred over the past few days. My mind was already being controlled and I was completely unaware. Any bruises, burns, needle marks or even genital soreness, was always explained to me and I had no reason NOT to believe the kindly doctor, who always called me "Dear". In the words of Sid Gottlieb, "I was ripe for the Big A". (A' meaning Artichoke, not amnesia, as I first thought, when these horrible memories began to surface

REPORT TO COMMITTEE

CLAUDIA MULLEN

5

TECHNIQUES UTILIZED FOR TRAINING AND INDOCTRINATION OF SUBJECTS:

-From 1958 until the late summer of 1959, I was tested by numerous doctors. That same spring, I overheard the Doctors- Gottlieb, Heath , Greene and a Phyllis Greensacre from Cornell talking about sending me away for a three week training program in Maryland. Dr.Greensacre had been consulted to determine certain "sexual problems or confusion I might have IF used in an exciting , but highly sensitive operation they were planning for August of that summer". She was to see if she could "assure Richard (Helms-Deputy director of Clandestine Plans-often called the head of ' dirty tricks') and "Stormy"(a nickname I heard them call the man from California called Captain White ') that I would be acceptable for "certain scientific procedures in an operational setting". She asked , "What for?" Dr.Gottlieb said Morse (Allen) was anxious to begin teaching me entrapment techniques, which could be used in a couple of years...as soon as they decided I was not too young to be conspicuous to the unwitting targets." She said she and James (Hamilton) both agreed that I responded well to older men and external stimulation combined".

Although they laughed, I was excited to be going away for a training program.

where I was still being abused by my mother's houseguests and numerous "terminal type techniques" (as they called the tortures we were subjected to at either the hospital or one of the Air Force Bases near New Orleans (and also the children in East N.O.). These terminal type experiments included :

"A combination of interrogation techniques involving a certain mixture of intravenous barbituates; followed by a stimulant; memory tests; shocks, isolation in huge tubs of alternating hot/cold water; degrading genital tests; followed by x-rays and/or long periods of no sleep with taped messages running. All this was followed by tests to determine if we remembered the series of tests!

"Sadistic harm avoidance tests(different types of pain to determine our tolerance to pain).

"Verbal abuse to lower our egos and increase our "needs to be dominated".

"Complete isolation from anyone else for long periods of time with only liquids to eat, which contained caffeine to increase amnesia.

"Sexual molestation by the doctors and Mr.Fenner, who was Chairman of the University board of directors at that time.

"Tactics to give us nightmares and then forced to remember them over and over.

like smoke . George White, once showed me how there were cameras behind one of the mirrors in the bathroom which was hidden from sight. The other bathroom was open so no one suspected anyone was spying on me and whomever I was forced to stay with-sometimes all night. They were so certain my amnesia would last, they would often brag about their jobs and how important they were(the doctors or the agency men). Dr. Heath once told a visiting man from Minnesota, that he and Wilson (Greene) had perfected my amnesia so well, I wouldn't even remember my own name tomorrow...until HE told me what it was. I was given a fictitious name so he could make entries into files about my progress; AND enter me as a " private patient of his" at Tulane, "being treated for schizoid tendencies and aberrant behavior".

REPORT TO COMMITTEE

CLAUDIA MULLEN

"My name from then on was Chrystal . At the Deep Creek Cabin ' camp' ,I was known as "Ava"- a name I was allowed to pick.

"My trip to Maryland (the first time in 1959) was probably the nicest three weeks of my life as their "S" or subject as I was called. It was beautiful there and no medicines or shots(except antibiotics) were given. No one was allowed to cause us pain and even the sexual abuse was limited. It was merely a one-to-one training period, where I was a "guest of Mr.Scheiber"-really Dr. Gottlieb and it was run by the head of "co vert ops", who called himself "Stormy". Most of the men I came to know well, were either there as observers or volunteer targets. We were taught different ways to please men and at the same time ask questions to get them to talk about themselves. Then, we had to recall everything about them-physical & personality traits; as well as repeat whole conversations. Later the movies , that were taken of us, were watched by us and the doctors (especially Dr.White or Captain White, Dr. Hamilton, Dr Wendt(the one they said wasn't really a doctor but an absent minded professor); a Dr. Moore from Delaware and even Morse Allen and R. Helms. The only person they said who was unaware of the cabin and Monroe's "unorthodox spending" was Mac or John McCone, whom they thought

REPORT TO COMMITTEE**CLAUDIA MULLEN****9**

-PROJECTS INVOLVED IN PERSONALLY AS "SUBJECT" OR LEARNED ABOUT IN CONVERSATIONS OVERHEARD AND/OR DIRECTLY TOLD TO ME:

-Whenever possible, I will include names of those participating in projects-

-The "Bluebird Project", I was told became from the "amnesia project called Artichoke" or "The Big A". It also included finding ways of determining if it was possible to lie under hypnosis. It was part of an "Umbrella...something" started about 4 years before I first met Captain White, Richard Helms or heard about the "Professor-Dr.Wendt".

-In 1959, when I first was taught to remember certain incidents & people by the cue:"THE BLUEBIRDS ARE FLYING".

-IN 1960, when I was 10, they spoke of a project called Naomi; which could "paralyze you by them giving you the K problem ". I believe it was only a tactic to scare me into obeying.

-When I was 12 (1962) I first heard them refer to MK Ultra; which Dr.Greene told me stood for

"war without death". It was also going to show "the Americans that WE CAN learn to control anyone's behavior if given enough time".

-The following year, in Mexico City, I heard the numbers subproject 128 and that I was "Subject(S)" either 1, 2 or 3.

-The man named Inspector Earman said they had a "third chance going with the drugs which could alter your mind"; and MK Delta meant it was all the most important parts of the Ultra Project like biochemicals, brain maps and brain surgery(which fortunately Mr.Fenner refused to let them do to me);electric shocks and different drugs to control behaviors; and also radiation to ensure silence somehow". I overheard a conversation between Drs.Greene and Heath after an "inspection" by the General (Earman).

-Something called MK Search was mentioned in 1965 as a way of studying germs to "kill people without them knowing they had been given gas and without using any weapons". I believe Dr.Greene was referring to 'Germ warfare '. Also he mentioned the large groups of children in retarded schools who had been given "doses of x-rays to see what would happen".

-All the people from the ORD place talked about was radiation(Drs.Orme, Gottlieb & Aldrich. Also the Morse Allen man, who seemed to be fascinated with hypnotism and said he "missed the early Artichoke days and talked about making "people into vegetables". and wishing "Esty(Estabrooks) hadn't chickened out of using terminal experiments!"

REPORT TO PRESIDENTIAL COMMITTEE**SUBMITTED BY: CLAUDIA S. MULLEN**

It seems that due to a brutal sexual assault in my own home , by someone I had trusted, produced such similar stress; that I suffered from Post Traumatic Stress Disorder and was hospitalized after the incident in October of 1992. This single act is what began the slow emergence of these long-forgotten memories. I would like to make it clear, that I never sought to retrieve any of these remembrances or any of the information I had stored all these years. My therapist was recommended to me by the New Orleans Police Rape Squad as an " expert witness in court cases involving sexual assault". Although, I lost my battle in court against the perpetrator, and Mrs. Wolf was never allowed to

appear as a witness; I consider myself fortunate I happened to still be in therapy with her, when the bits and pieces of these past horrors began to slowly return. Never once has hypnosis been utilized; nor have I ever been told of ANY government projects by my therapist. In fact, I was the first one to even mention the CIA or the names of any of these projects or participants. The past two and a half years, I have been able to remember these instances of their abuses on me as a child ; while my therapist has been available to offer comfort, support and keep me safe during this time. Recently however, I have constantly been threatened, harassed and had my life turned into a waking nightmare; all because I sought to validate my extraordinary memories by initially contacting Doctors Heath, Orne and Brown . Of course, this was BEFORE I recalled THEIR participation in torturing , sexually assaulting and controlling me throughout the first three decades of my life. When I confronted them with my memories, they threatened me repeatedly and I was assaulted and given drugs and shocks again ; in order to gain my promise of silence. Although Dr. Orne sent someone in his ' behalf to "personally give me his message" to "keep my mouth shut, discontinue my therapy and above all- leave HIS name out of it!" All three Doctors stated they would not tolerate their "reputations being tarnished by things that might have occurred many years ago, while I was undergoing , quote -treatment for childhood schizophrenia". I have been under the care of two psychiatrists and several therapists over the past two and-a-half years, who ALL have assured me I am not, nor was I ever schizophrenic. What I HAD developed as a defense mechanism was a dissociative disorder. I would love nothing more than to say I had dreamed all this up and need to just "forget it all"; but that would be a tragic mistake. Not only that, it would be a lie. All these

TO: Presidential Commission on Radiation Committee
FROM: Valerie B. Wolf
DATE: March 10, 1995⁷

As Chris De Nicola's therapist, I wish to document the process of how she has recovered her memories of being used as a subject in governmental experiments involving radiation and mind control. All of Chris' memories have emerged spontaneously with free recall. No memory recovery techniques such as hypnosis or sodium amytal have been used. For the first two years of treatment, Chris remembered only Dr. Greene and her father as well as other men whose names she did not know. Several months ago, after completing a memory, she asked for pen and paper and began to write out confidential CIA and military memos. I had never told her anything about governmental and CIA involvement in the type of mind control techniques that she had remembered nor, to my knowledge had she ever read anything on this subject. While she knows some of my other clients who have been subjected to mind control techniques, she has had no opportunity to speak with them. This memory came up unexpectedly, as did the radiation memories. She has since remembered many more

memos and project, subproject and experiment names as well as code numbers. We have not had the opportunity to check the validity of these memories and would welcome the opportunity to do so.

Statement - Chris De Nicola - 3/15/95

The rest of the experiments took place in Tucson, Arizona out in the desert. I was taught how to pick locks, be secretive, use my photographic memory to remember things and a technique to withhold information by repeating numbers to myself.

Dr. Greene moved on to wanting me to kill dolls that looked like real children. I stabbed a doll with a spear once after being severely tortured but the next time I refused. He used many torture techniques but as I got older I resisted more and more.

He often tied me down in a cage, which was near his office. Between 1972 and 1976 he and his assistants were sometimes careless and left the cage unlocked. Whenever physically possible, I snuck into his office and found files with reports and memos addressed to CIA and Military Personnel. Included in these files were Project, Sub Project, Subject and Experiment names with some code numbers for Radiation and Mind Control Experiments which I have submitted in my written documentation. I was caught twice and Dr. Greene tortured me ruthlessly with electric shock, putting shots in my stomach, in my back

drugs, spinning me on a table, putting shots in my stomach, in my back, dislocating my joints and hypnotic techniques to make me feel crazy and suicidal. I protected the information by using the technique I had been taught. I repeated to him over and over, "They came too quick, I didn't have a chance to see anything."

Because of my rebellion and growing lack of cooperation, they gave up on me as a spy/assassin. Consequently, the last 2 years, 1974 - 1976, Dr. Greene used various Mind Control techniques to reverse the spy/assassin messages to self-destruct and death messages. His purpose? He wanted me dead and I have struggled to stay alive all of my adult life. I believe it is by the grace of God that I am still alive.

These horrible experiments have profoundly affected my life. I developed Multiple Personality Disorder because Dr. Greene's goal was to split my mind into as many parts as possible so he could control me totally. He failed, but I've had to endure years of constant physical, mental and emotional pain even to this day. I've been in therapy consistently for 12 years and it wasn't until I found my current therapist

STATEMENT

Good afternoon. I'm Chris De Nicola born July of 1962 rendering me 32 years of age. I was a subject in Radiation as well as Mind Control and Drug Experiments performed by a man I knew as Dr. Greene.

My parents were divorced around 1966 and Donald Richard Ebner, my natural father, was involved with Dr. Greene in the experiments. I was a subject from 1966 - 1976. Dr. Greene performed Radiation Experiments on me in 1970 focusing on my neck, throat and chest, 1972 focusing on my chest, and my uterus in 1975. Each time I became dizzy, nauseous and threw up. All these experiments were performed on me in conjunction with Mind Control techniques and Drugs in Tucson, Arizona.

Dr. Greene was using me mostly as a Mind Control subject. From 1966-1973 his objective was to gain total control of my mind and train me to be a spy/assassin.

The first significant memory took place at Kansas City University in 1966. Don Ebner took me there by plane when my mom was out of town. I

was in what looked like a laboratory and there seemed to be other children. I was strapped down, naked, spread eagle, on a table on my back. Dr. Greene had electrodes on my body including my head. He used what looked like an overhead projector and repeatedly said he was burning different images into my brain while a red light flashed aimed at my forehead. In between each sequence he used electric shock on my body and told me to go deeper and deeper while repeating each image would go deeper into my brain, and I would do whatever he told me to do. I felt drugged because he had given me a shot before he started the procedure. When it was over, he gave me another shot. The next thing I remember I was with my grandparents again in Tucson, Arizona. I was 4 years old.

You can see from this experiment that Dr. Greene used trauma, drugs, post-hypnotic suggestion and more trauma in an effort to gain total control of my mind.

He used me in Radiation Experiments both for the purpose of determining the effects of Radiation on various parts of my body and to terrorize me as an additional trauma in the Mind Control Experiments.

STATEMENT

Good afternoon. I'm Chris De Nicola born July of 1962 rendering me 32 years of age. I was a subject in Radiation as well as Mind Control and Drug Experiments performed by a man I knew as Dr. Greene.

To give you a brief history, my parents were divorced around 1966 and Donald Richard Ebner, my natural father, was involved with Dr. Greene in the experiments. I was a subject from 1966 - 1976. Dr. Greene performed Radiation Experiments on me in 1970 focusing on my neck, throat and chest, 1972 focusing on my chest, and my uterus in 1975. Each time I became dizzy, nauseous and threw up. All these experiments took place in Tucson, Arizona.

Radiation on Uterus

Dr. Greene was in charge of the experiment but my father, Don Ebner, assisted. He was not only responsible for sneaking me out of my mother's house in the middle of the night but also assisted Dr. Greene with 99% of the experiments, including this one. I remember being in a black room and

I was naked, strapped down on a table spread eagle on my back. Dr. Greene and Don Ebner put electrodes on my head near my temples, chest, stomach, legs, arms and back. Dr. Greene used electric shock on me. It was painful. He told me something about my having a choice that I could stab the doll outside which he said could have been a real child or he was going to use Radiation on my uterus to kill my chance of ever having children, that I would be killing unborn children. I told him I didn't want to stab the doll outside and take a chance it could actually be a child. Dr. Greene said something to me like "So you've chosen to kill any children you might have?" I said, "Yes." Dr. Greene had given me a shot that made me drowsy. I was scared. Dr. Greene moved a machine over me. Separate parts of the machine looked like an x-ray machine you might see in a dental office but they were all connected somehow. Dr. Greene put 3 on my stomach near my belly button and one that pointed straight at my vagina as close as he could get it. Dr. Greene asked, "Are you sure about this? You have choices you know." I said, "Yes." He used electric shock. Dr. Greene and Don Ebner went around a corner and Dr. Greene told me I'd never be able to have children, in fact, I was a murderer. Then he turned on the machine. I heard like a drone sound as the machine was starting up and then a buzzing sound. I felt pain but that's because he used electric

43

Statement - Chris De Nicola

shock at the same time. He turned the switch on and off 3 times. I felt pain. Dr. Greene and Don Ebner came out and taunted me about how I'd never be able to have children and how I was a murderer because I made that choice. I started to feel real dizzy and then I threw up. Dr. Greene got mad at me and used electric shock on me. Again and again. Calling me a murderer. A worthless insignificant bitch. Over and over between shocking me. Then gave me a shot.

Next thing I knew I was strapped down on a table spread eagle, naked, on my back out in the desert. That's where they usually took me to do the experiments. Dr. Greene told me I was fat, a worthless insignificant bitch and used intensive electric shock. I passed out. He revived me and called me a murderer and shocked me again to the point where I passed out. He continued this cycle with Don Ebner on the other side of the table assisting him until I was almost unconscious. The pain was excruciating. It felt like I was going to die. Then Dr. Greene gave me a shot and I woke up in my bed at home with no memory of the experiment.

Dr. Greene used Mind Control to...

Dr. Greene used Mind Control techniques during the Radiation experiment on my uterus. Using trauma, giving me messages such as I'm a murderer and a worthless insignificant bitch in between more trauma. He also used Drugs. A shot that made me drowsy and a shot that made me totally unconscious so Don Ebner could get me back home. The electric shock served the purpose of wiping out my memory of the incident at that time but not permanently. From what I've described, you can see how Mind Control techniques and Drugs were used in this Radiation Experiment.

Mind Control

Dr. Greene was using me mostly as a Mind Control subject. His objective was to gain total control of my mind and to instill messages in me, to be a spy/assassin. From 1966-1973 Dr. Greene and Don Ebner worked hard to mold me into a spy/assassin.

The first significant memory took place at Kansas City University in 1966. Don Ebner took me there by plane when my mom was out of town and I was staying with my grandparents. She had no knowledge of what my

Statement - Chris De Nicola

names with some code numbers for Radiation and Mind Control Experiments. I was caught twice and Dr. Greene tortured me ruthlessly with electric shock, drugs, spinning me on a table, putting shots in my stomach, in my back, dislocating my joints and hypnotic techniques to make me feel crazy and suicidal. I protected the information by using the technique he taught me against him. I repeated to him over and over "They came too quick, I didn't have a chance to see anything." And varied my answer a little so he wouldn't get suspicious.

Because of my rebellion and growing lack of cooperation, they gave up on me as a spy/assassin. Consequently, the last 2 years, 1974 - 1976, Dr. Greene had access to me, he used various Mind Control techniques to reverse the spy/assassin messages to self-destruct and death messages if I ever remembered anything. His purpose? He wanted me dead and I have struggled to stay alive all of my adult life. I believe that it is truly by the grace of God that I am still alive.

How All The Experiments/Torture Have Affected My Life

These horrible experiments have profoundly affected my life. I developed Multiple Personality Disorder because Dr. Greene's goal was to split my mind into as many parts as possible so he could control me totally. He failed, but I've had to endure years of constant physical, mental and emotional pain even to this day. I've been in therapy consistently for 12 years and it wasn't until I found my current therapist two and a half years ago who had knowledge of the Mind Control Experiments that I've finally been able to make real progress and begin to heal. All of my memories have emerged spontaneously with free recall. Memory recovery techniques such as hypnosis have not been necessary. I remember!

In Closing

I ask that you keep in mind that the memories I've described are but a glimpse of the countless others that took place over the 10 years between 1966 and 1976. I have included a more detailed description of what I remember in your packet. That they weren't just Radiation but

97
Statement - Chris De Nicola

Torture Techniques

I would like to preface the following with the fact that they had stripped me naked almost every time. I felt humiliated and ashamed.

The purpose of these torture techniques was to gain total control over my mind and body, and to split my mind into as many parts as possible so that they could mold me into a spy/assassin. Some of the torture techniques were used to ensure that I would never talk about what they did. As I resisted them more and more when I got older, Dr. Greene reversed the messages about being a spy/assassin and not only increased the intensity of the torture but switched the messages so I would become self-destructive, suicidal and have difficulty with therapists.

1. Severe electric shock all over my entire body.
2. Don Ebner brutally raped me on many occasions.
3. Peggy Ebner, his current wife, raped me and repeated to me that I preferred women sexually.

4. Tried to get me to believe I was gay knowing that I was heterosexual and had strong feelings against being gay.
5. Tied me down in a cage on my back and shocked me and left me alone in the dark outside.
6. Strapped me down on a round table naked, with electrodes on me, shocking me and spinning me on a table at the same time.
7. Tied me standing up naked spread eagle with electrodes on my back against a wall. Don Ebner shocked me. Then stopped and had intercourse with me and shocked me again.
8. Tied me down on my back in some sort of chamber. Put electrodes on my body and spun me and shocked me simultaneously.
9. Strapped me down in a wooden box on my back with electrodes on me. Dumped live bugs on me. When they used electric shock the bugs died.

Statement - Chris De Nicola

79

21. Tied me down on some sort of a wooden table and stretched my body...arms and legs until it hurt and then left me there alone in pain. Then returned and stretched me more.

22. Tied me to two poles spread eagle. Stretched me as much as they could. Put shots in my stomach around my belly button. Also put shots in other areas of my stomach and my back as well. Then used electric shock on my body.

23. Had me in a building that looked like a psychiatric ward. Dr. Greene taunted me and tried to make me believe I was crazy. He had me put in restraints on a bed. He gave me various shots. One that made me drowsy, one that made me unconscious and another one that made me feel and act crazy. It was like I was hallucinating. He told me I was crazy and would be locked up in a psychiatric hospital the rest of my life. He took me from there to an elevator to another floor where there was a dark room with a spotlight on some sort of platform. I was standing spread eagle and tied between two poles and Dr. Greene used electric shock on me. Sometimes

would leave me there and my arms would ache from hanging there for so long. Sometimes he put shots in my stomach on these occasions. Then he would give me a shot in the arm and would take me back to the elevator down to the psychiatric ward. Sometimes he would make himself look different somehow and act like he was a psychiatrist who really wanted to help me. He would talk to me while I was in restraints on a bed on my stomach. He would say if I would cooperate I could come out of restraints. So he would have people dressed up like nurses take me out of the restraints. I cooperated briefly and then tried to escape and his assistants would grab me and throw me back in restraints. The whole sequence of events made me feel crazy. Dr. Greene also used a red light while I was in restraints on my back and used post-hypnotic suggestion that I was crazy and would be institutionalized for life.

24. Put shots in my belly button, the center of my vagina and in the nipples of my breasts and other areas of my breasts as well.

25. Put electrodes inside my uterus and the rest of my body and shocked me.

51

Statement - Chris De Nicola

How All The Experiments/Torture Have Affected My Life

As a child I lived in fear. Dr. Greene and Don Ebner threatened to kill me, my mother and even my dog. As far back as I can remember, I just wanted to be dead. I still live in fear at times.

At age 11, October of 1973, I was admitted to Tucson Medical Center for tests. I had complained to my mother that my legs hurt initially. Then I complained of pain in my right knee, then my left knee, and then my right knee again. The pain got so bad in my right knee, I could not walk on it. That is when my mom took me to my pediatrician and he recommended I be hospitalized immediately. I had a low grade fever, slight swelling and severe pain in my right knee. Specialists came in to examine my knee but they couldn't figure out what was causing my symptoms. After a few days in the hospital, the pain subsided and I was able to begin to walk again. After about a week, I was able to walk fine. The physicians were puzzled and finally just diagnosed me with a virus and released me from the hospital. I believe what happened had to do with the torture I was enduring, whether it was radiation, electric shock. I don't know. But in

...choking, whether it was voluntary, shock or...
looking back, the excruciating pain I felt in my knee was very similar to
the pain I felt when Dr. Greene performed different experiments on me. I
just can't identify which one.

As a child I was very thin and it was very difficult for me to eat. My
mother agonized over making things that she knew I liked to get me to eat.
My mother nor my grandparents had knowledge of the experiments I was
being subject too in the middle of the night by Dr. Greene and Don Ebner.

In school, my grades were C's and D's. I tried as hard as I could but I
just couldn't concentrate. It wasn't until about 1974 when my grades
went up to A's and B's. I attribute this change partially to the fact that I
had developed my photographic memory as a result of Dr. Greene's
experiments but I think most of it had to do with the fact I had come to
some sort of peace. That I wasn't going to give in to Dr. Greene molding
me into a spy/assassin. By that time I had made a conscious decision to
totally resist. He could kill me or not kill me. I didn't care. So even
though the experiments continued until 1976, my grades got better

53
Statement - Chris De Nicola

in me about starving that 4 months ago I was able to begin to eat without so much trouble.

Over the last 5 years different parts of me have taken three major overdoses. Prescription medication along with champagne on an empty stomach. Specific messages ingrained in me by Dr. Greene. I had to have my stomach pumped on all 3 occasions and literally almost died from two of the overdoses. When the paramedics found me on one of the occasions I had actually stopped breathing. The last overdose I took was in March of 1993 and I was in intensive care for two days. The irony is that I didn't want to die. Nor do I want to die now.

In September of 1993 one of the parts of me hog tied me to the bed and put a chain around my neck connecting it to my feet and put my hands in handcuffs behind my back after drinking some sort of alcoholic beverage. I was able to get out of it, but was diagnosed with a Larynx Contusion. It took 1 year to heal totally. It is still sensitive and recently I injured it again accidentally in the course of reliving the violent memories. Again, diagnosed with a Larynx contusion. It will take time to heal.

heal. It is a strain to talk and although I like to sing, I can't because it is too much of a strain and hurts my throat too much.

In May of 1994 one of the parts of me stopped drinking water or any other kind of fluid for 12 hours. I was o.k. but then the following week they did it again only withholding liquid for 24 hours. I couldn't urinate and ended up with a kidney stone as a result. I was in severe pain.

July of 1994 one of the parts of me felt they were supposed to jump in front of a train. By that time that part of me had enough information to know it would kill me; however, was in a trance state and watched the train. That part of me modified the message to jump in front of the train by trying to jump on the train. I was able to grab hold of the train with my hands but my feet didn't make it onto the train. I was dragged for quite a few feet on rocks before the engineer of the train stopped and I let go. I went to the emergency room. I was fortunate in that I only bruised and severely strained muscles in my neck and the entire right side of my back. I went to physical therapy for awhile and it pretty much healed.

Statement - Chris De Nicola

isolate me from everyone in an attempt to reinforce the suicidal messages.

My relationship with my mother is much better now as a result of understanding and undoing the messages Dr. Greene ingrained in me and because both my mother and I never gave up on the relationship. We've both worked hard to keep the connection.

I am married to a man that I have known for ten and a half years. We've been married nearly 4 years now. Out of all that time, again because of Dr. Greene's negative messages about men, and other issues too, my husband and I have only lived under the same roof for a total of about 6 months. We currently are living separately. Out of all the years we've known each other our sexual relations have been extremely limited. However, we are working together on ourselves and the relationship to finally reach the goal of being able to live under the same roof and develop a true intimate relationship.

I was able to hold a full-time job with Disneyland for approximately

7 years. I worked my way into a Traffic Coordinator position with Disneyland Advertising but because of the constant flooding of memories and being in so much physical, mental and emotional pain I was forced to quit in March of 1990. I was completely overwhelmed and just couldn't focus on my work anymore. As a result of all of this, I applied and was granted California State Disability benefits from March 20, 1990 - April 13, 1991. At that point my full disability benefits had been exhausted. So, I tried to work part-time. I took one part-time job after another trying so hard to be able to focus and hang on to a job. Finally, I was granted partial benefits with California State Disability from approximately September 10, 1991 - March 14, 1992. I didn't receive much but it helped. I was holding a part-time job for part of that time but ended up having to quit because of the reasons I stated earlier.

My husband and I got married April 14, 1991 and even though we lived separately most of that time he helped to support me financially and he still does.

Statement - Chris De Nicola

Project, Sub Project, Subject & Experiment Names

Within the following pages are Project, Sub Project, Subject and Experiment names and *some* code numbers that coincide with the names I remember seeing in Dr. Greene's files on Radiation & Mind Control between 1972 and 1976. You will notice I have left some blanks under the "Code Number" headings or have left that heading out completely because I do not remember or may not have seen code numbers for that particular name or document.

I would like to take this opportunity to remind you that my memories of this information have emerged spontaneously with free recall. Memory recovery techniques such as hypnosis *have not* been necessary. Some words may *appear* to be misspelled. I have only recorded the names *exactly* as I remember them.

I have no way of validating this potentially crucial information I remember seeing. This is precisely where your decision to recommend an investigation to release the information would be extremely useful. Thank

you.

SCHOOL OF LAW

67

March 9, 1995

To Whom It May Concern:

My name is Alan W. Scheflin. I am a Professor of Law at Santa Clara University Law School, and a judicially recognized expert in mind and behavior control. I co-authored a nonfiction book about government mind control programs entitled "The Mind Manipulators," which was published in a dozen countries.

I am writing in support of the testimony of Claudia S. Mullen and for the purpose of encouraging the opening of secret government files on radiation and on mind control. I have been studying these secret programs since 1975 and it is my conclusion that there are at minimum hundreds, and most likely thousands, of American citizens who could benefit from learning that they were used as experimental guinea pigs in government research projects.

Claudia's therapist has been kind enough to send me, with her patient's informed consent, some of the pertinent records reflecting Claudia's memories of her experiences as an unwitting subject in these experiments. I have been able to confirm that some of the information Claudia has provided is absolutely true and could not have been derived from any published source. I am persuaded that government mind control experimentation is on-going and vastly

that CIA has proof that secret government mind control experiments have been going on for more expansive than government authorities are willing to admit.

I know that many of the stories that will be told by witnesses will sound unbelievable. Please do not dismiss them out of hand. I learned the hard way that, although there is much disinformation about mind control experiments, there is also much truth in the least likely stories.

Release of remaining documents on secret government experiments is in the public interest and would not threaten national security. It is time for citizens to again trust their government. Public disclosure would be the act of good faith to encourage that trust. Furthermore, and most important, there remain victims of these programs who deserve to have that victimization come to an end. Let the truth set them free.

It would be my pleasure to supply any additional information requested.

PERSONAL BACKGROUND

Business Santa Clara University Law School
Address: Santa Clara, CA 95053
 (408) 554-4443

ACADEMIC POSITIONS

Professor of Law, Santa Clara University Law School, 1979-present. Tenured 1979.
Courses taught: Professional Responsibility, Forensic Persuasion, and Law & Psychiatry.

Associate Professor of Law, Santa Clara University Law School, 1974-1979.

Visiting Associate Professor of Law, Santa Clara University Law School, 1973-1974.

Visiting Associate Professor of Law, University of Southern California Law School, 1971-1972.

Associate Professor of Law, Georgetown University Law Center, 1967-1971.

Professorial Lecturer in Philosophy, Georgetown University, 1967-1970.

EDUCATION

Santa Clara University: M.A. in Counseling Psychology, 1987.

Harvard University Law School: LL.M., 1967.

George Washington University School of Law: J.D. with Honors, 1966.

INVITED EXPERT TESTIMONY

Legislative

1983. Testimony before the California Senate Committee on the Judiciary on a proposed Constitutional Amendment to permit non-unanimous jury verdicts in all non-capital criminal cases, November 1983. Transcript, Interim Hearing on Senate Constitutional Amendment 10 (Presley), November 22, 1983, pages 25-45.

1975. Written testimony reprinted in Prison Inmates in Medical Research. Hearings before the Subcommittee on Courts, Civil Liberties, and the Administration of Justice of the Committee on the Judiciary, House of Representatives, 332-341, September 29 and October 1, 1975.

Judicial

1993. Expert witness in Howell & Hallgrimson v. Fong. My Deposition was taken, but the

75

November 1993. Presenter at the American Society of Clinical Hypnosis 1993 Workshops on Clinical Hypnosis. My topics included discussions of legal and ethical aspects of practicing hypnosis, and discussions of "false memory" cases. Maui.

October 1993. I delivered two Training Workshops for the Center for Integrative Psychotherapy. The first workshop was "Mind Control and Hypnosis." The second workshop was "Repressed & False Memory in Hypnotherapy and Psychotherapy." Boston.

August 1993. Panelist, with Herbert Spiegel, Elizabeth Loftus and Edward Frischholz, on "Memories and Child Abuse," at the American Psychological Association Annual Convention. My paper was entitled "False Memories and Real Lawsuits." I was also a Discussant of papers delivered at a panel entitled "Multiple Personality Disorder and Personal Responsibility." Toronto.

August 1993. Presenter and Panelist at a meeting of the Toronto Medico-Legal Society. The subject was False Memories. Toronto.

March 1993. Moderator, The Ethical Lawyer II. This was a Santa Clara University Law School CLE Presentation. Santa Clara, California.

March 1993. American Society of Clinical Hypnosis, 35th Annual Scientific Meeting and

Workshops on Clinical Hypnosis. Among my duties, I (1) co-organized the "Considerations" material to the Beginning and Intermediate Workshops, (2) was a Panelist on a Plenary Session on "Ethics and Jurisprudence in the Practice of Hypnosis," (3) was a Panelist on a Symposium on "Dealing with the Problem of Lay Hypnosis." New Orleans.

February 1993. Co-Presenter, with Cory Hammond, Ph.D. at the First Annual Conference on Ritual Abuse/Mind Control. Richmond, Virginia.

January 1993. Feature Speaker at the San Francisco Academy of Hypnosis Academic Assembly. Topic: "A Century of Anti-Social Uses of Hypnosis: A Slide Presentation." San Francisco.

December 1992. Faculty for Fifth International Congress on Ericksonian Approaches to Hypnosis and Psychotherapy. Among my duties I (1) conducted a Workshop on "The Illegal, Immoral and Unethical Practice of Hypnosis: Avoiding Ethical Quagmires and Legal Pitfalls", (2) appeared as a panelist on "Ethical Issues in Ericksonian Therapy", and (3) appeared as a panelist on "Research in Ericksonian Therapy." Phoenix.

October 1992. Panelist on "Ethical Obligations of Attorneys Representing Financial Institutions in the 90s", sponsored by the Financial Institutions Committee of the Business Law Section of the State Bar of California. Los Angeles.

October 1992. Conducted a one-day Workshop on Forensic Hypnosis for the Minnesota Society

77

faculty of the Santa Clara University Graduate School of Counseling Psychology and Education.

August 1983. Co-delivered a paper on "Hypnosis, Psychotherapy and the Courtroom: Historical Perspectives and Current Practice" at the Annual Convention of the American Psychological Association. Anaheim.

April 1983. Address to the Bench and Bar Committee of the San Francisco Bar Association on "Should Psychiatrists Testify in Court?" San Francisco.

1981 and 1982. Delivered a series of lectures at the International Institute of Human Rights in Strasbourg, France. The topics were "Freedom of the Mind As an International Human Rights Issue," and "International Control of Psychiatric Abuses."

1978 and 1979. Guest Lecturer at the Pacific Graduate School of Psychology on "The Limits of Ethical Research for Psychologists."

March 1978. Feature speaker on a panel at the Annual Meeting of the American Orthopsychiatric Association on the topic "Scientific Participation in Mind Control Research."

1977. Delivered a lecture at University of Hawaii Law School on "Mind Control and the CIA."

1973. Delivered a lecture for the Criminal Law...

Berkeley on "Behavior Modification in the Correctional Process."

1972. Presentations to the faculty of the University of Southern California Law School and the Jurisprudence Society of the University of California, Los Angeles Law School on "Jury Nullification."

September 1970. Feature speaker on a panel at the Annual Convention of the Federal Bar Association on the topic "Political Trials." Washington, D.C.

FORTHCOMING PRESENTATIONS

March 1995. I am scheduled to deliver a paper entitled "What We Know and What We Do Not Know About Mind Control Programming and Ritual Abuse," for the Society for the Investigation, Treatment and Prevention of Ritual and Cult Abuse. Richardson, Texas.

May 1995. Plenary Speaker on "Hypnosis and the Law," at the Federation of Canadian Societies of Clinical Hypnosis, Fourth National Assembly. I will also co-conduct a Workshop on "Legal Matters." Banff, Alberta, Canada.

August 1995. Speaker at the Annual Convention of the American Psychological Association.

79

I continue to make frequent appearances on radio and television shows throughout the country each year on topics of current interest related to law and psychiatry, persuasion, hypnosis and mind control.

In addition to my media appearances in the United States, I have appeared on television shows and/or documentaries in England and Australia.

PROFESSIONAL RECOGNITION

My work in various fields has been discussed or noted in the following periodicals and books (specific references available upon request):

The Boston Globe; The San Francisco Examiner; The New York Times; The Washington Post; The Chicago Daily Law Bulletin; Harvard Civil-Rights Civil-Liberties Law Review; Journal of Legal Education; George Washington Law Review; The Los Angeles Daily Journal; The Washingtonian; The Honolulu Advertiser; Honolulu Star Bulletin; The San Jose Mercury News; The San Francisco Chronicle and U.S. News & World Reports.

Who's Who in California.

Who's Who in American Law.

APPENDIX II

81

The Mind Manipulators

The Mind Manipulators has been published in the United States, Canada, Great Britain, Ireland, Australia, France, Holland and Yugoslavia. It received highly favorable reviews in several dozen newspapers and journals. For example:

a) Publishers Weekly of May 1, 1978 said: "This book is enlivened by so many intriguing examples and so readable a style that most general readers will find it as easy to take as a novel."

b) The Medical Tribune, which reaches virtually every doctor and nurse in the country, said: "In the growing field of medical ethics, few books published to date have contained as much solid data on the surgical, psychological, chemical and biological strategies of attacking such non-medical problems as foreign policy, crime, urban unrest, and poverty as have been presented in The Mind Manipulators... [This] well-written book is a must for doctors and concerned laymen alike." (October 4, 1978).

c) On October 8, 1978 the Los Angeles Times placed The Mind Manipulators on its Critics Recommend List.

d) Dr. Merdi Horowitz, Professor of Psychiatry at the University of California, San Francisco, said:

by Dr. Martin H. Bornstein, Professor of Psychiatry at the University of California, wrote about The Mind Manipulators in the June 1979 San Francisco Review of Books as follows:

Allegations...are well documented in this long book. If the references prove correct, this will be an essential source for historians. ...And the peril justifies the length and care of these authors.

The world is complex and hard to understand, but I think the issue of good and evil that the authors raise is not melodramatic but factual. It is time for all of us, scientist and citizen alike, to be alert. This book tells the uneasy tale you really ought to know.

Valerie Wolf
740 Dante Street
New Orleans, LA 70118

[note: a copy of this letter will be mailed tomorrow]

Dear Ms. Wolf,

Re: CIA and Military Mind Control.

Further to our recent telephone conversation, I am writing to support your presentation to the Presidential radiation committee and your request that an inquiry be made into the overlapping subject of CIA and military mind control.

I am a psychiatrist with over 100 publications in professional journals. My area of specialty is dissociative identity disorder (DID) (formerly called multiple personality disorder), a topic on which I have published two books, one with John Wiley and Sons.

and one with the University of Toronto Press. I have another book on the subject in press with the University of Toronto Press. Another book recently published by Wiley, of which I wrote about one third, deals partly with DID. I was the 1994 President of the International Society for the study of Dissociation, which has about 3000 members.

I became interested in CIA and military mind control when patients with DID began describing involvement in mind control research occurring on military bases and in hospital settings. Since there is no way to tell clinically whether these memories are real, I began to do background reading and research on mind control in 1992. I enclose a reading list of the materials I have read.

In an article in the April 1971 issue of *Science Digest* G.H. Estabrooks describes using hypnosis to create artificial DID in military personnel during World War II. The purpose of the DID was for infiltration and courier operations - the amnesia involved created a layer of security from defection and interrogation inside the subject's mind. Estabrooks describes inserting specific code phrases used to call out the alter personality holding the classified information, of which the main part of the person was unaware. Estabrooks also wrote a textbook on hypnosis that went through a series of editions.

Declassified materials describe a large mind control research program conducted by the CIA and the military from 1951 - 1973 under cryptonyms including MKNAOMI, BLUEBIRD, ARTICHOKE, MKULTRA, and MKSEARCH. I have in my possession about 80 of the 149 MKULTRA Subproject files, which I obtained through the Freedom

fs

the DID patients' memories may be distorted or inaccurate. it is not plausible that the CIA and military intelligence agencies simply stopped this research in 1973, as they claim. If it continues to the present, it must have become much more sophisticated.

I would be pleased to testify at length at any hearings on CIA and military mind control.

Sincerely,

Colin A. Ross, M.D.

81:

Clinically, I am fully aware that patients are suggestible, that I have a responsibility to be careful and not lead my patients to conclusions about their experiences. I used their words to describe their experiences and that is one reason why it took me time to figure out that they might be talking about mind control techniques but using different words like "cult" or "programming." I feel that I abided by this during my care of these patients.

This is only an outline. Details of the forms of abuse would take pages. More was reported to me and I have lists of names, dates, locations, but am reluctant to share more than this unless at least this much information is taken seriously by someone that I can trust.

General Overview and Common Traits:

1. Approximately 100 patients have been referred or have self referred for psychotherapy of varying time lengths or for consultation, over the last 6 years.
2. At first I saw patients that resided in and around a major southern city. Later, patients were referred from all over the United States. I have also seen many patients in consultations that other therapists have brought to my office with specific therapeutic questions.
3. Regardless of where these patients lived, they reported the same basic information. Common traits were found in most of the patients who reported or described participating in what appear to fall into the classification of radiation or mind control experiments.
4. Patients reported that the list of experiences below were among the ways that multiple personalities, operatives and amnesia were produced within their personality.

structure.

ECT was used on various parts of the body, usually the physical places that do not readily show or in tissue that heals quickly. Patients told me no scars were to be found. This included the head, teeth, ears, the nipples, vagina, rectum and other parts of the body. A cattle prod type instrument was used to train patients to behave in certain ways.

Most patients described a helmet they wore that was related to both ECT and to sounds, such as taped messages in their ears, intense pain, disorientation, isolation, etc.

Goggles were often described that show colors or complete blackness as a part of sensory deprivation.

Goggles that gave the impression of "virtual reality" were described by my patients long before that concept was on the market. They reported that these goggles were used for them to view images that terrified them, made them think they had done horrendous things, including committing crimes such as murder, cannibalism, and also the images were used for blackmail purposes. ("You did this and we will send you to prison if you ever tell.")

Sensory deprivation in the home included closets, laundry hampers, drawers, and being locked in car trunks. Outside the home, this deprivation included totally soundproofed rooms and no light. They reported a sense of being left for hours or days in isolation with no human contact. They were left in a room on LSD and other drugs or used sexually while on these drugs. Patients report being held upside down in what is described as a black hole as a means of sensory deprivation.

Some patients described a hyperbaric chamber where the pressure changed and was very painful to them.

Immersion in water was used including being shackled in a cage, with a helmet, goggles, and a sense of being able to feel pain and then eventually not feeling anything at all.

89

The patients described torture from very early in childhood that persisted even during therapy since the programming does not permit them to stop what appears to be conditioned responses to act sado-masochistically.

Almost all of them describe a doctor or hospital setting, being strapped to a bed or table to have various experiments done to them including ECT, drugs, helmets, tapes to listen to, sexual assault of all types.

These patients described terribly demeaning, humiliating acts with the psychology being that nobody wants them, loves them and that their only hope is that their perpetrators will care for them.

Most patients described Neo-Nazi alter personalities who believed in the coming of the next Reich, had Nazi thinking, had alters named after concentration camps, Hitler, Adolph, other Nazi leaders and had a belief system of Aryan Supremacy. The thinking was clearly not something obtained except through intense brainwashing and not available to the general public.

6. More specific experiences that one or more patients reported::

A patient described situations where everyone wore the protection used by X-ray technicians except the patient. The patient thinks radiation of some sort occurred.

Patients reported being hung in a harness around the waist, straps around the upper body with straps in the area of the vagina and rectum. These were used to use ECT on the head, nipples, insert objects and ECT devices in the vagina and rectum. Depending upon the age of the patient, this was originally described as used for torture and complete control of the patient. Then, the patient reported that she was trained to be the perfect prostitute and to react in certain ways with certain men. Depending upon what was needed either as a prostitute or in a pornographic film, the patient was trained to react in certain ways, play

starting at around 5 years of age and being used throughout their life for training or punishment purposes. Patients reported that, in retrospect, this made the prostitution and pornography go more smoothly.

Many patients reported being trained to be "programmers" by the "Dr. Green" which included starting with young children and using various quite involved techniques to mind control their subjects. The purpose was to create operatives, multiplicity and amnesia about all that happened. Any deviations in behavior were to be corrected by "adjustments" or further torture with ECT and other very painful tortures.

Most described routine use of a torture table where they were strapped down and then a variety of the above tortures were used depending upon what was needed.

Recruiting of children and adults into this situation was also reported by my patients. They described going to malls and other places and seeking out vulnerable people. If appropriate, they acted as a prostitute and also gave free drugs to get them locally involved. Others, especially the homeless or out of work, were promised jobs, given bus or airplane money and put on a bus or airplane. Usually from this city, relocation was reported to be to the Colorado Springs, Denver area.

Almost all patients reported being chained or shackled so that the patient had to remain on hands and knees and then made to have sex with specially trained dogs. After the training, this was used in both activities involving prostitution and pornography.

Almost all patients described being kept naked in cages while waiting for many of the above activities to occur to them while watching it happen to others.

Patients described enemas, being made to eat their feces, drink their urine and have their mouth used as the toilet for others in totally breaking down the person. This was also reported to be used during prostitution and pornography.

91

March 10, 1995

After working with Disassociative Disorder clients for five years, it became apparent that there were some differences in the recovery process, the feel of their energy, and difference in layers/divisions of altered states within their system.

When I began this work in January, 1990, I had heard little of Satanic cults and/or medical experimentation or even systemic and sadistic abuse. Clients with Satanic cult/KKK/witchcraft organized crimes connections seemed to be able to break through the programming, once safe in a hospital or away from the groups and to be able to move through memories and find a spirituality that helped them in the process of healing. When clients talked about computers, cold sterile rooms, hospitals, doctors, military procedures and training; the memories were more difficult to access. These clients had a much more flat affect, more depersonalized and had a more difficult time finding a spirituality to help them in the process.

Repeatedly, I kept hearing some of the same procedures: spinal taps, experiments in water and other flotation tanks, EKG, EEGs, drugs (especially nicotine and hallucinogens), electrical shock treatments, including putting tubes down the throat and shocking to stop the heart and other functions). Many talked of needles and medication being put in the brain cavity and other parts of the brain cortex to be stimulated to ascertain pain tolerance, disassociative tolerance and other functions or lack of functions. Experiments with colors and lights were used a great deal as were mirrors to distort reality and to test clients' ability to repeat numbers and words. As in the cult activities, extreme sensory deprivation and sensory overload were used to distort reality and to confuse the senses. Every mind control technique known, has mentioned by the clients and others not known *before by this therapist.*

Repeatedly information about being in intelligence and/or warfare became a common theme. Clients have had memories of going to Boy/Girl Scout camps to learn warfare techniques and being in government underground facilities.

93

page 3

After working extensively with thirty five (35) clients and six children with systematic and sadistic abuse and disassociative disorders, thirteen adult survivors are known to have the mind control/medical experimentation.

For the purpose of this report and the hearings, I will list the clients with memories of radiation poisoning/injections. I will list the doctors and locations as the clients have given. Because I want to protect their identity and mine, because we are all well aware that I am being watched and monitored about who and when I see the survivors. I will attempt to list the salient facts in a concise way, to be used for the hearings.

CA, 39 year old female, born in 1955 in Oakland, Cal at the Naval Station. She grew up in Colo. where they moved immediately after the birth and her father, in the AirForce moved them between Gunnison, Colo., Pampa, Texas and Amarillo, Texas. She has memories of being the underground facility in C. Springs,

He subsequently admitted this.

NORAD, as well as her AirForce uncle took her to the underground facilities in Nev. Information that she has secured includes that both parents were hypnotized and told that she would be made available to them at any time, in return for the government leaving the other children alone. Her father was also used as an experimental subject and was periodically in and out of state hospitals for mental breakdowns. The family was drawn into this by her paternal grandfather in Pampa, Texas, who had been in trouble with the government and was immunity for the use of his son and the children. She had information that she was poisoned by radiation as an infant in 1956 and subsequently by Dr. Volkenstein from Pampa between 1958 - 1961. She was told she had an extra kidney and had surgery as an infant. Subsequently it has been found that her kidney was destroyed by radiation and had to be removed within the first 18 months. Presently her ANA (Anti Nuclear Antibodies) are positive and she had ongoing health problems. She also knows that her uncle took her to Nevada every summer vacation and she was subjected to radiation poisoning from 1970 to 1974. The doctors who are mentioned frequently by her include: Dr. Rosenbaum, Dr. Greenbaum, Dr. Volkenstein, DR. William Mullens and Dr. Woolsworth Russell. She was also given hormone shots yearly and had a complete hysterectomy by the time she was in her mid twenties. She has had repeated occurrences of breast cysts over the years.

95

page 5

She has memories of a nurse putting a needle in her neck and upper right shoulder in 1960 and not wanting the doctor to know what she was doing.

The doctors that she talks about are: Dr. Charles Evans, Dr. Trout, Dr. Temple, Dr. Kerth, Dr. Lupertz and Dr. Goldshe in Crockett, Texas.

Her father traveled all the time and the memory is that her mother thought she was helping medical science by making the client available for experiments. She also has a memory that the experiments stopped because they were considered a failure.

CK, 38 year old female,, born 1956 in Athens, Texas. The experiments were done at Tyler Memorial Hospital in Tyler, Texas. Her father was a veteran of WWII and had PTSD and was involved with KKK and the Masons. She has memories of the experiments occurring between August, 1961 and 1967, although she had was told she was born with 4 kidneys and one was removed at age 18 months. She feels that the radiation poisoning killed one kidney. The experiments that she remembers included seeing how

much pain she could endure. She also has memories of learning how to memorize numbers, shapes and other codes. Much of her programming was done with food, so she has an ongoing issue with an eating disorder, fluctuating between not eating and overeating. The doctors that she talks about are: Dr. Claywater, Dr. Green and Dr. Holt. She also mentioned that the hospital was all green.

CKM, 30 year old male, born in 1965 in New York and spent time in Cleveland, Ohio and Dallas, Texas. He is beginning to have memories of being underground with large doors, huge computers and a hospital setting. He knows he has been poisoned by radiation but does not have the clear memories yet and has not mentioned the doctors or specific places yet.

CL, 47 year old female, born in Ohio, in 1947. Father worked for Manhattan project and when she was diagnosed with Disassociative Disorder, appeared to be relieved about a great secret but died very quickly and unusually of Alzhiemer's Disease. She believes that he could have had radiation poisoning, because of the progress of the disease did not make medical sense. She has flashes of underground labs, sterile rooms, halls and being trained as a soldier in the Navy. She has just began retrieving memories.

Valerie B. Wolf, BCSW, ACSW, BCD

March 18, 1995

97

Mr. Steven Klaidman,
ACHRE,
1726 M St., NW
#600,
Washington, D.C. 20036

Dear Mr. Klaidman,

This letter is a follow-up to our March 15, 1995 conversation following my testimony at the Presidential Committee on Radiation. As you requested, enclosed is more specific information on Chris DeNicola and Claudia Mullen's knowledge of projects within the government, with specific information on where radiation files might be hidden.

I want to take this opportunity to thank you and the staff for allowing us the opportunity to testify. The feedback that we received from the audience is important for you to know. Many people came up to us and said that their loved one who had been exposed to radiation had talked about...

exposed to radiation had talked about mind control techniques, but that they did not know what they were talking about. Other radiation victims shared with us that they had been subjected to mind control as well. At least one person knew Dr. Orne and several others knew Dr. Greene's name. It appears that some of the radiation victims have been focusing on radiation and not realizing the importance of the mind control techniques that were also done with them. We have focused on mind control while hearing about radiation. The overlap between the radiation and mind control experiments may be greater than we had realized.

I would like to recommend that you call Alan Schefflin, JD, Professor of Law at Santa Clara University to get more specific information. Enclosed is a copy of his resume. He is the foremost expert in this area in the country and he has been researching CIA and government files for 20 years. In fact, it might be useful to you and your committee to have him get the clearance to research the files so that he can assist you in researching the files. Because he is familiar with the names and information and how it all cross checks, he may be able to find out information for you on the radiation experiments within the mind control files quickly and efficiently, since I know that your time is short in terms of finalizing your report. He is willing to be of assistance to you in any way.

John Kelly informed me that the CIA did its own internal investigation of the mind control experiments in 1978. Would it be possible for your staff to help us to obtain this report?

**CITIZEN'S REPORT TO THE PRESIDENT'S ADVISORY COMMITTEE ON HUMAN
RADIATION EXPERIMENTS**

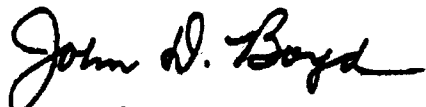

As a licensed clinical psychologist in private practice, I have treated three patients whose memories of childhood abuse include the detailed recall of sophisticated mind control technology being inflicted upon them by "experts" in collusion with the patients' mentally disturbed parents. The independent reports of these individuals contained similar information of an esoteric and intricate nature concerning mind control technology which in my opinion could be gained only through personal experience. I am submitting their letters to you because the non-familial perpetrators of their abuse may fall within the purview of the Commission's investigation, i.e., individuals who began mind control experimentation on citizens of the United States of America during the 1940's.

the 1940's. Having practiced psychotherapy for twenty five years, and served on the faculties of Ohio State University and the University of Virginia, I am well aware of the controversial nature of these patients' allegations. As a Diplomate of the American Board of Psychological Hypnosis I am knowledgeable in the area of human memory. My scientific training has led me to thoroughly scrutinize these patients' memories and conclude that the recollections are based upon actual experience.

Letters from Renee Bright and Christine Gentry(pseudonyms) refer to mind control abuse originating in the 1940's. Their dissociative material appeared to me to have major experimental or programming flaws, while the dissociated effects in John Smith were relatively precise, having been administered in the 1960's. I wonder if 15-20 years of practice yielded greater efficiency, the technology being refined as it was utilized by successive perpetrators?

I am available for testimony or other forms of input to the Commission. Please give this information your most serious investigation.

John D. Boyd, Ph.D.

Licensed Clinical Psychologist

JOHN D. BOYD Ph.D.

(01

of years, battling periodic homicidal and suicidal urges with the help of prescribed tranquilizers and continual therapeutic support. Thus, in April 1991, I checked myself into a hospital in northern Virginia which had developed a specialized unit for the treatment of Dissociative Disorders. Here, I met my second therapist.

He, too, was puzzled by my inability to progress in treatment, since I had begun seventeen years before and had been able to recover my memories without the benefit of hypnosis.

One day, at the end of a session in March 1992, he asked me if the name "Dr. Green" meant anything to me. I answered--no, I didn't think so-- then asked him who Dr. Green was. He said that a colleague had called him that week to report that this doctor's name was coming up, in association with ritual abuse, by survivors in different parts of the country. I, then, heard myself say-- that his name was not really "Green", but Greenberg, Greenbaum or something like that; that I was not sure, but did not think that he was a medical doctor, rather some other type of scientist; that he was a German Jew, who, because he did not look Jewish, passed as a Gentile (my stepfather referred to him as an "Aryan Jew"); that he had learned mind-control techniques in Nazi Germany, then was brought to this country to teach these techniques; that he was the man who taught my stepfather, who, in turn, taught others-- nationally.

I cannot identify "Dr. Green" physically, as I was always either blindfolded or facing into a bright light during indoctrination sessions. "Dr. Green" was present at many of the initial "sessions" referred to above, as well as others at different sites. I do remember that he spoke German (as did my stepfather) and had an accent. I learned that he was actually Jewish (with a number tattooed

somewhere on his body) from overhearing a heated conversation between my stepfather and another man involved, when they discovered this fact.

I do not remember the specifics of any programming. However, I do remember the techniques by which they were instilled: hypnosis, electroshock, sensory deprivation (by isolation- in closets, in underground dirt "rooms", in "graves", under water, etc); death threats to self, others and animals; use of drugs (i.e. varying doses of sodium penythol, peyote or other hallucinogenic drugs, some drug which was an intense sexual stimulant); torture by any and all means imaginable; promises of organizational promotion, success and security; seduction and blackmail. The physical and psychological trauma would produce dissociation, at which point specific indoctrination and programmed responses would be introduced, i.e. *alters* which performed specific duties or responded to particular cues. At the same time, "natural" alters would form as isolated parts of the original personality in response to the trauma. If one was not aware of *created alters*, one could not address them.

After our initial discussion regarding "Dr. Green", my therapist informed me that specific programs had been instilled in MPD systems as a means of mind-control. In July 1992, I began "Deprogramming Treatment" with Dr. Boyd. As a result, I have been able to terminate therapy and am now free from any need of medication. I do, however, live with some residual fear. It is my fervant hope that this Commission will be able to contribute some understanding of the above circumstances.

Thank you for your efforts.

March 8, 1995.

103

I understand that the creation, or *programing*, of specific *alters* was a part of the abuse plan to allow me to behave in certain ways; and while my learned dissociation may have saved my life then, I believe that there have been times that these created "toxic alters" might have allowed, or even encouraged my demise. I also know that the creation of alters took place over a long period of time and many abuses. I know now too that the creation or evolution of these alters covers a period of time of approximately *nine* years. I also realize that the manipulation of my mind was a planned, organized and purposeful action carried out by a skilled man whose eyes demanded my concentration and obedient response.

Initially, I remember that I was put in a very dark, damp, basement closet-like place (I think an herb collar) by myself, with no light for a long period of time, only to be *rescued* by the doctor, who I was told I must trust. I came to depend upon him and believed that he was the only person that could save me. I learned to trust and depend upon his every word. I later came to accept that any unwillingness on my part to obey, would result in my incarceration either in the "herb collar" or in some dark, cold place (once it was in some kind of cave, another time in a dirt hole in a barn floor with a trap door).

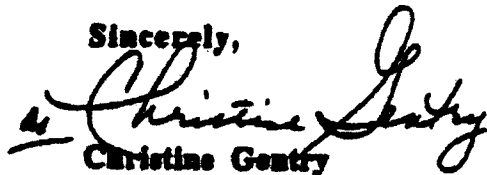

Sometimes, especially when I had to memorize something, they used bright lights, of different colors. At times the lights would flash very rapidly, sometimes more slowly. Frequently the light effect was enhanced with the use of drugs. When I successfully related to my inquisitors the appropriate answers to their questions, or responded with the ideal feedback, the lights would be discontinued. Then there were times that only one light was used, a very bright, very large light that stayed on during our entire "session". It was during this

time that I learned to focus clearly on him, it was as though I could see only him, only his eyes, with an aura around the dark outline of his body.

There have been many times that I have tried to dispel these memories as childhood fantasies, but they do not go away. Even after I have remembered them, the horrors do not subside and the memories do not fade. It has been some time now, yet I still remember people (Dr. Green and others), places (traveling at night, almost always at night, to a place near some body of water, for training), and the training itself (the memorization of certain words and symbols, and the creation of other persons who could be "called out" by the use of specific words for some potential task, or to protect that training and programmed behavior desired by the creators).

The memories are real, horrible and incredulous as they may sound. They are the emotionally painful bruises that I carry daily. They are a reality of scientific experimentation gone too far, by demented people who believe that people can be sacrificed for research and children will not remember; or perhaps the expectation or hope was that children would remember, and be called back at some future time to accomplish some unknown "task".

Sincerely,

Christine Gentry

John Smith page 2

~~-----~~ They would keep me awake hours on end with no food or water. They enjoyed seeing children beg for food and cry to go to sleep. During times of torture they had tape recorded messages playing, videos playing, all with instructions for me to follow. I was to lead a normal life and at the age of 33 return ~~-----~~. The last few times I was taken to Greensboro I was introduced to a DR. LOWENSTEIN and DR ROSENBERG. I was strapped in a chair, and the electrodes were put on me. They would call out alters, and if they didn't answer, I would get shocked. Personalities would be called forth to recall their programming (instructions) in explicit detail, and any wrong answers always ended in being shocked. These are only a part of my memories. My life was almost ruined by these people. Reliving these memories was the hardest thing I've ever had to do.

At that time, I had over 400 alters. Now, Dr. Boyd and I have integrated all but about 30. I live a fairly normal life with my wife and children. I've been lucky they stuck by me. I am in a community college now, and I have two more semesters to complete before I graduate. I have done well with a 3.8 GPA.

I can still recall these memories, and I will assure you that they are not hallucinations or dreams. The abuse I suffered under these people

was very systematic and deliberate in order to split my mind creating alter personalities to achieve total mind control over me. There was an elaborate setup used to torture us. It reminds me of an operating room.

My mother and brother have confirmed some of my memories, and I have many body scars and conditions that coincide with my memories. My wife and I secretly visited my uncle's farm to confirm my memories of the placement of barns, smokehouses, cabins, ponds, etc. where abuse took place. My map was almost identical to their placement and it has been almost 20 years since I've seen it. I wrote a letter to my uncle denouncing what he did to me and tell him that I no longer wanted anything to do with his religion. I have received a couple of messages from my uncle directly and about four messages indirectly from other family members.

My brother, now at the age of 41, has begun having memories for the past year. I am certain that he has suffered from the same abuse I did. He has just now, as of December 1994 started receiving therapy.

Thank you for listening to my story, and I hope that you can put some conclusion to this abuse that many of us suffer from.

Springs generally.

Current programming of my patients appears to be ongoing at Sandia Labs (bunkers), Kirtland Airforce Base, Roswell, N.M. Other locations may be involved as well.

All programming is based on creating dissociated ego states in the individual and is diverse and particularized to the individual. Certain types of base programs, as well as secondary programs, exist which can be identified in most individuals even though the details of the programs vary.

Universally, patients report the following mind control experiences from infancy (involvement of the immediate family is commonly the case):

Use of drugs, electroshock, sexual molestation and rape, various physical tortures (drowning and resuscitation, burning, starvation, physical isolation, physical abuse of various types). Also used are computer screens, flotation tanks, isolation booths, gurneys, IV's, restraints, video screens, audio technology, virtual reality, etc.

All who have been involved in mind control experimentation and programming in government labs or on military bases are convinced of government involvement. Government agencies referred to are the CIA, Department of Defense, NASA among others. These individuals are convinced by their programmers they risk death or harm to their loved ones if they talk and that there is nowhere to turn for help in our society. They are subjected to programming to doubt their own reality and told no one will ever

programmers. Multiple programmers are used, usually dressed alike with similar haircuts, etc. Often a therapist look-alike is evoked in the laboratory setting to further confuse the victim, although most survivors can usually tell the difference afterwards if not during the actual programming session. The programmers appear to have achieved a level of considerable sophistication in their technology and practice.

While it is not possible at this time to verify all of the accounts that we receive of mind control tortures, there is enough underlying consistency to these reports from unconnected sources to merit our investigation of them. It is imperative that a Presidential Commission be appointed to investigate the potential for crimes against American citizens who, if they are in fact being tortured and abused, are being ruthlessly exploited and who have no recourse for protection or validation.

Starting in 1962, the nightmare of experiments and related activities continued for me for several more years when I was relocated to the Washington, D.C. area. Again, the experimentation, torture and abuse occurred in many U. S. government facilities including in: 1) high level intelligence and military facilities in Northern Virginia; 2) CIA safe houses in the area; 3) private homes of some government officials in the metropolitan area including Alexandria, Falls Church and Arlington; 4) Ft. Detrick in Frederick, Maryland; and 5) in the Fort Meade/NSA area in Maryland.

There are a number of names of government officials who were involved in the radiation and mind control experiments and related activities that I can supply, but among the key individuals were Dr. Sidney Gottlieb of the CIA and Dr. White, Dr. Green and Dr. Hamilton who were working for Gottlieb in some capacity. There was a Nazi doctor who played a key role in some of the physical and other sadistic experiments done to me.

There is more information that I can supply about some of the government and non-government facilities that were used. For example, I have drawings of the layouts of some of the property and places where products of some of the experiments were disposed of. In order to protect myself, I have placed this material along with

other more extensive documentation, in several safe and secure places.

The personal consequences of the nightmare of these experiments, torture and abuse have been devastating - physically, mentally, emotionally and spiritually. I had significant physical health problems as a child and even more significant medical problems for over twenty years of my adult life. I have had many years of psychotherapy to cope with the effects of these radiation and mind control experiments and my professional career and my relationships have suffered as well. But perhaps the greatest burden for me now has been the emotional and physical pain caused by these experiments, combined with the knowledge that my country's government allowed such experiments and other activities to take place - that there was insufficient oversight to curb the excesses and atrocities that occurred.

I believe that it is only with the full revelation of what occurred in these experiments that the safeguards that are supposed to operate in our democracy can be put in place so as to avoid such tragedies in the future. Despite all that has happened to me, I believe in the wisdom of our democracy, but I know better than most citizens of the terrible excesses of governmental power, especially when secrecy and national security are used by the government as a cover for human evil and an attitude that the ends justify the means.

The Presidential Committee on Radiation

Dear Sirs:

This is my personal witness of victimization by radiation and a progression of mind control techniques. The following knowledge has come to me outside the benefit of a therapeutic relationship. I look forward to being able to support my personal truth with published material. It is written anonymously in accordance with my understanding of the spirit of its presentation. I have attempted to outline extensively documented recall contained in audiotaped and written material shared with both law enforcement and therapeutic communities since 1988. Names of people mentioned here are those I commonly knew them by and may not represent their legal identities. I have drawn many of them and would welcome the opportunity to view photographs with the purpose of identifying them. Names of places mentioned were overheard in conversation at times when the person responsible for me seemed to think I was too drugged or dissociated to remember. I have drawn some of these places and I would welcome the opportunity to validate my memories by visiting them.

I was born in 1944 into a family which had consistently had

emotionally, physically and sexually traumatized all offspring for generations. My legal father was in the Air Force. A young physician I knew as Dr. Korim (spelling?) instructed my mother in the beginning of mind control techniques at the age of 6 months until my middle teens. A friend of my mother's with Navy survival training named Joe Montalbueno (spelling?) assisted by a boyhood friend of my father's named Henry Blessing have continued to carry out mind control techniques on me all of my life.

At the age of 18 months I met a person I knew as Herr Doctor. My mother spoke to him in German. I was taken to New York City where I was subjected to what I believe to be radiation to my head. The machines resembled older styled X-Ray units and produced the generator whirring sound peculiar to them. I was also given electric shock.

At two I was enrolled in a class of 10 other girls who were being taught dissociative techniques by Prune, a school in New Britain. The rest of the group seemed to range in age to 10 years old. I was sexually abused routinely after class to curb my rebellious nature. My mother broke my left arm across the top when I was 3 so that I would not use my left hand. They used water, lights, hypnosis, sexual abuse, electric shock to train me to pass messages from person to person. There were often men in military uniforms who participated in this training.

I learned how to handle weapons, particularly how an ice pick left as neat hole. A hole that allowed so little blood to escape that

117

investigation of this type of severe child abuse. You must prevent future generations from being victimized by those who are elected and chosen to protect them. I believe this is a matter of utmost importance and demands the full resources of your office.

Respectfully Yours,

Chandra Walker Michaels

coupled with the opaque shadows (exactly opposite of Western culture's binary pairings). Many states of deprivation were used in addition to the visual stimulation like hunger, cold, heat, too much auditory stimuli, too little auditory stimuli, etc. The woman referred to me as "it." (ie. "Does it know what this is?" "Does it want out of the box?"). I was not allowed to move onto other programming until I created a dissociative ego state separate from the rest of my psyche. They gave the ego state a name of their choosing and called me that name when they wanted her to present.

In addition to the Station, I was taken by my mother to an ophthalmologist's office in the city of Amarillo a number of times. I was five years (5 yrs.) old the first time I can recall (although my mother reports that I was "treated" by this doctor from age two). My mother turned me over to the "nurse" calling patients back. The "nurse" took me to a small ophthalmology office located right in the center of the building, with an administrative office off to the right of the room. The "nurse" sat me in a chair in the administrative office, across from an empty physician's desk. After about ten (10) minutes, a large-framed, middle-aged, red-haired woman in a green two-piece suite and light stockings entered the office, introduced herself as "Mrs. Simms," and took a seat opposite me. She was smiling and calling me yet another name. She explained that we would be doing a number of "fun" things together. She said that

the day. She praised me for being well-mannered, and led me to a black examination chair in the exam room. The "nurse" administered stinging eye drops in each of my eyes and the room went completely black. I heard the "nurse" call my new name and asked if I was "here yet." She then projected english words and letters on the wall across from me. My eyes were out of focus. The "nurse" became more and more irritated with my silence and told me she was going to get the doctor to make me speak. "Mrs. Simms" came in was not friendly this time. For what seemed like many hours, I was forced to repeat letter and number sequences that had no meaning to me. Most of the sequences were nonsense pairs, or things that are not typically grouped together. Some of the letters were upside-down. There was a break in the day, when I was given back to my mother for a short period of time, but none of my physical needs were attended to like my need for food, liquid, or to be taken to the bathroom. We had come in the morning, and were not released until the sun was going down. There were about ten (10) days intermittently spent this way over the next year, and an additional ten (10) days at age 11.

When I turned eight years (8 yrs) old, the torture aspect of the programming became much worse. I was accompanied by "teachers" at the Station to a tank holding a large amount of water and between one and three dolphins. All the "teachers" were dressed exactly the same: plain grey suite, white long-sleeved shirt, black leather shoes, black plastic-rimmed glasses, gold-colored watchband, and crew haircut. They were indistinguishable from one another. Very few women were present, but the ones I saw wore grey, two-piece suiteskirts with light stockings. Their

literary works, and other matters of world interest. I was instructed (mostly by elderly women) on the differences in types of wine, entrees, clothing, manners, etc. I was taught by younger women how to maneuver sexually to "take a man's mind off anything." After much training, I was used in the United States to assist the C.I.A. in covert operations, mostly as a sexual escort to distract government officials that were later assassinated by other players in the operation. All of these assignments were initiated over the phone by a male voice saying a specific, pre-laid chess move in a certain order, which would bring a dissociated part of me to the forefront for further instructions at a designated meeting place. Each assignment was delivered with the explicit warning that death would be sure should I deviate from the instructions in any way.

In 1974, the government stopped using me. Contact was reestablished in January 1994, when I was placed on "stand-by" status for an assignment in North Vietnam. Details of the job were never relayed to me and I never went to Vietnam. I was abducted from a college campus in New Mexico in August of 1994, and taken to an underground facility I believe now to be associated with a prominent lab in Albuquerque, New Mexico. I had begun work on a project involving "computer hacking" data off the InterNet of demographic information on elementary school-aged children entered on classroom computers, when I became aware of the dissociated part of me that was participating and discontinued any further

any activity around that. I have received telephone calls, verbal threats, and was even physically assaulted, for refusing to continue the project. Before each of the three (3) abductions, a stranger would approach me and speak a chess move, altering out a compliant ego state. I would regain consciousness in the surroundings of my own home, unaware that I had been anywhere or done anything. Once I realized what was happening, I refused to go with the abductor the fourth time and have not been to the facility since.

These events have caused a great deal of difficulty for me, and remain a formidable obstacle I face each day. The painful part is that I was harmed by an agency of my own government, in direct violation of rights I am guaranteed as a citizen of the United States. No one in our country should be subject to such mistreatment yet, I believe these activities are still going on today. Any action leading to the protection of our nation's children (and adults) from such damaging abuse is worth the time and money it will cost to carry it out.

Thank you for your consideration of the above. God bless you in the days ahead.

Amy

1 23

recordings of music and sounds played continually
endless information about numerology, astrology, biblical data, Greek
alphabet, world history data, and occult practices which serve as
control gimmicks for triggering a victim to keep silent and provide
a smoke screen for what is really going on
calendar dates - my daughter has described certain dates throughout the
year that are designated for criminal activity. Some of these dates
include March 21 (Spring Equinox), June 21 (Summer Solstice),
September 21 (Fall Equinox), December 21 (Winter Solstice),
February 2, Christmas, Easter, birthdays, and other religious
holidays. For the last 4+ years, we have consistently received hang
up calls around these dates. My daughter has explained that the
number of hang up calls received or the time of the call are codes
for telling her that she needs to contact her master for instructions.

As much as I did not want to believe this had happened to this
innocent child, I could not deny what was before my very eyes. I have been
present in many memory processing sessions and witnessed the body
reacting to remembering the abuse. My daughter would have seizures
while remembering the electroshock. She would have body markings
(discoloration, bites and scalds), and body sensations (vaginal

and rectal discomfort, feeling too hot, feeling too cold, stomach nausea and discomfort). The screams and cries from the terror she remembers are undeniable. There is no way she could be acting or making this up.

As I learned about the horrible crimes committed against my daughter, I read everything I could find involving the occult, organized criminal activity, brainwashing techniques, and mind control. It was only then that I realized the striking similarities between what my daughter was describing and the mind control research done by the CIA, beginning in the 1950's. I have since learned that the CIA drug and mind control experiments are still going on.

The most compelling evidence I have seen which confirms CIA involvement is what is identified by many victims of mind control as "the black box". My daughter has drawn pictures of herself hooked to wires that lead to a small black box. As I later learned, the black box is a source for the electricity used in electroshock torture. I personally witnessed the dismantling of one of these boxes by an experienced electrician who had basically no knowledge about electroshock torture. It

125

"good girl". To this day, she is unable to set foot in a Dalry Queen.

Jack F. and Jill Coogan - On October 5, 1994, Jack Coogan pleaded guilty to tax fraud and was sentenced to 6 months community confinement, a \$15,000 fine, and 500 hours of community service; he owns CISCo (Coogan Industrial Services). My daughter says that Jack Coogan was her master and pimp, a.k.a., "Uncle Jack". The last time she saw the Coogans, my daughter came home from their house (March 13, 1991) and immediately became agitated, distraught, and self-destructive and had to be hospitalized.

Dr. Gary E. Miller - This doctor performed electroshock/LSD torture on my daughter for the purpose of programming her. When her therapist moved her office to a new building and I took my daughter to the new building for the first time, she told me she felt like she had been to that building before. I later discovered that Dr. Miller's office was in the same building as my daughter's therapist.

Dr. George S. Glass - During a hospital stay, my daughter was watching TV and saw an ad by Dr. Glass. She recognized his voice and became very

agitated and frightened. She later remembered that he has programmed her. Another patient on the unit with her also had a reaction to the ad.

Sudha Tavi, M. D., Psychiatrist

Kathleen Earthrowl, Licensed Professional Counselor

Lawrence D. Ginsberg, M. D., Psychiatrist

Robert E. White, M.D., Psychiatrist

"Dr. Sam"

"Dr. Green" - we have since learned that many of the doctors who tortured and abused my daughter were only known to her as "Dr. Green". Some she has been able to identify, but others are unknown at this time. There is an Dr. L. Wilson Green who was connected to the CIA. She has also remembered that the people who tortured her often wore black vests or coats that look like the kind employees in doctors' offices wear when taking x-rays.

March 08, 1995

Affidavit of Marilyn Matson

I, Marilyn Matson would like to swear to and state the following:

1. I was physically abused and my mind programmed at V.A. hospitals during the years 1950 to 1954. I was between the ages of 11 - 14 at the time. My father, Ralph A. Matson was a Major or Lt. Colonel in the U. S. Army. I specifically remember being abused in the Salt Lake City, Utah, V.A. Hospital at Fort Douglas. It was the old V.A. Hospital.

The methods used to program my mind were pain and torture, repetitive sounds in my ears, flashing lights, sleep deprivation drugs etc. My father was often present during these sessions. The torture and programing was done by doctors and/or orderlies. Sometimes there were other men in business suits present. The names Green Room, Greenbaum or Greentree are associated with these sessions.

I remember being taken to other V.A. hospitals around the country

by my father when he went to "camp". I am not sure of their localities. The program methods used were similar.

2. Between 1975 and 1980 I was in the care of a psychiatrist Dr. Tom Fox MD, in Logan, Utah. He continued to program, sexually and physically abuse me. He used his private office as well as the old Logan Hospital and other localities. At times he was joined by a Dr. Black from Southern Utah. The last incident I recall was in 1985 at St. Marks Hospital in Salt Lake City, Utah, where I had been hospitalized for depression and ECT treatments. Although he was not my attending physician, Dr. Black visited me several times to check if the mind programing was still intact.

3. I have had a 30 year history of mental illness with various diagnoses. Since my memories have emerged and I have received proper treatment, I am finally getting well.

Dear Ms. Wolfe:

I am writing this letter anonymously because it is not safe for me to identify myself.

While I was in the Air Force, I was subjected to extensive experimentation, including the use of drugs and electric shock, creation of amnesia and other goals. The following areas were involved:

1. Lackland AFB - 1977 - during basic training
2. Oklahoma - I was at Tinker AFB, lived in a hotel off base. I also was at Fort Seale on several occasions.
3. I was stationed in Germany - I also lived off base in a hotel. I was on several bases in Germany - Bittberg, Ramstein, Munich,
4. Experimentation was also done in the Washington, D.C. area.

I could provide you with many details but I do not feel safe to do the t.

My job was as an assassin.

Label Project.

CHATTER

(This continued to the late 1970's
and included drug experiments, especially
LSD)

MKSEARCH

(This is where the main radiation and
germ warfare experiments were conducted)

The Human Ecology Society later became Experimental Research and
then Association for Psychological Assessment.

Claudia says that the main places to look for radiation files would
be under the Science and Technology Department of the CIA,
particularly under ORD, Office of Research and Development. The
Scientific Engineering Institute provided private funding to the
CIA for this. She also says that there may be something under the
Technical Services Division (TSD) which is included in Clandestine
Services, the "Dirty Tricks Department". Also to look in TSS,
Technical Science Services which came out of TSD for radiation
files.

Other CIA projects were as follows:

MKNAOMI

(includes germ warfare and some radiation files)

MKDELTA

(Includes mind control, drugs and radiation)

TRIMS

(This is a place and a project name in the Air Force in Texas. Radiation research was carried out here which related to work at the Edgewood Chemical and Radiological Laboratory of the Army Chemical Center at Fort Dietrich, which is where Dr. Greene was apparently the Scientific Director under the Army)

Other important projects:

GREENHOUSE

(1940's)

(This project covered bringing Nazi scientists into the U.S.)

Claudia says that when the Rockefeller Commission asked Frank Church to determine if radiation should be investigated during the Rockefeller Commission, he was invited to attend a demonstration of the affects of mind control and radiation. She says that he was blackmailed and paid off to say that there was nothing wrong with what they were doing. He got Lashbrook, Dr. Charles Geshecker and Colonel Monroe to testify that the radiation experiments were not
