III. BACKGROUND AND EXPLANATION

Steven S. Biss suffered a debilitating stroke on 16 August 2023, and the Charlottesville Circuit Court appointed me receiver on 20 September 2023. Sometime between Mr. Biss' stroke and my appointment, someone broke into Mr. Biss' office, searching through his files, leaving files in gross disarray, and possibly removing files and other items.

I was able to access Mr. Biss' office for the first time on Tuesday, 3 October 2023 at 0930. At that time, the office did not have a computer, although it had computer-related items (e.g. connecting cables, printers, and monitors) indicating that a computer had been there. Also, at that time, I was unable to find open or pending files.

I have been investigating the location of the computer and the open, pending files which I believe contain contact information for Ms. Steele and Earth Intelligence Network.

As recently as yesterday, I was able to obtain an e-mail address for Ms. Steele, and I have communicated with her by e-mail and telephone this morning.

Finally, based on extensive, credible, and corroborating evidence from various sources, including attorneys at the Virginia State Bar, Mr. Biss' conservator, Mr. Biss's clients, Mr. Biss' family, and me in my capacity as receiver, I believe I know who possesses Mr. Biss' computer and open, pending files. The Virginia State Bar is currently preparing a motion seeking injunctive relief from the Charlottesville Circuit Court to obtain the computer and files, among other things.

IV. CONCLUSION

My investigation continues, and I have intentionally omitted details of my investigation in this letter to avoid compromising the Virginia State Bar's attempt to seek injunctive relief. However, if the Court has any questions or requires more details, I am willing to cooperate.

Sincerely,

PARK CHAMBERS
