Hi,

I included Andrew into this email, since I have been emailing Andrew re: [REDACTED] part of this investigation.

I am now bringing in Ohio AG's office/organized crime investigation commission. The connections to the same group that have been targeting

- 1.) Neely Petrie-Blanchard
- 2.) Timothy Charles Holmseth, watchdog journalist and informant
- 3.) Jessie Marie Czebotar
- 4.) and others

and now myself as their escrow agent of their information (keeping it outside of the courts and BAR system)

I am bringing this to your attention via E'Clause, LLC who was doing loss prevention and auditing on behalf of the US Congress via title 42

See attached info regarding Christopher Edward Hallett as CEO., murdered on November 15, 2020.

Much of Chris's information began in the States of Ohio&Florida. Same with Timothy Charles Holmseth (Minnesota/Ohio & Florida) . Now the same with myself. Same group.

Please see attached Chris's investigations information and who was involved, labeled Sharia Lawsuit Notification. Chris Hallett and Kirk Pendergrass audited Timothy Holmseth's and Neely Petrie-Blanchard's cases under this operation. (Neely's husband is in the Coast Guard, in Pensacola Fl - Robert Petrie)

The murder of Christopher E. Hallett should be moved out of the State of Florida's AG hands and into a military court, in my opinion.

Best Regards,
Randi Erickson

Part of this group is Ashley Cooper Brown out of Two Harbors MN, which she states after 10 days after Chris's murder, they have Chris's computer. (See attached post she did with a threat).. Ashley Cooper Brown works with [REDACTED] was stripped of his trident as a Navy Seal and all benefits.

Attached see a brief of information regarding Ohio AG's office/organized crime investigations commission
