In Re: Domestic Terrorism / CIA Black Ops on American Soil

Robert Jenkins  
Director of Public Affairs  
Fort Campbell, KY

Mr. Jenkins,

Yesterday you were contacted by my publisher Randi Erickson regarding threats of rape, torture, and murder being directed toward me, Ms. Erickson, our families, and what appeared to be a thinly veiled threat against Melania Trump. Ms. Erickson advised you the threats were being made by Craig R. Sawyer, president, Veterans For Child Rescue Inc, Arizona, as well as his VIPR team members and advisors including Bob Hamer, James Hill, and Vice Admiral Charles W. Moore.

An informative story was published yesterday regarding Ms. Erickson's delivery of evidence to CID which can be seen at this link.

Within hours of our initial report, Craig Sawyer issued an ominous statement online on GAB wherein he boasts he is an "extensively trained" and "experienced" "killer" which included a posed photo of himself dressed as an assassin holding a rifle. I am including screenshots of the statement and the photo of Sawyer.

It may be of interest to CID that a cautionary warning to President Trump I authored regarding Mike Pence, and sent to Attorney General Jeff Sessions (at that time), was tweeted out to nearly a million followers of Attorney Lin Wood. Interestingly...Craig Sawyer quickly telephoned Attorney Wood in what I believe was an attempt to convince Attorney Wood to remove the tweet. I believe Mr. Sawyer said he spoke to Attorney Wood for several hours. Attorney Wood did not remove the tweet. See attached. I don't know if Attorney Wood taped that call but CID might find it useful if he did.

Mr. Sawyer has published nomenclature featuring logos and names of many military units, as well as the logos of FBI, CIA, NSA, and other federal agencies. He announced to the world that he is working with all those agencies. As you can see...it's very concerning Mr. Sawyer claims to be running Black Ops and using Fort Campbell for sexual torture and murder.

Respectfully yours,  
Timothy Charles Holmseth
